Filing Description:

Allstate is proposing an overall +2.4% rate level change to the Allstate Property and Casualty Insurance Company Private Passenger Automobile program in the state of Wisconsin. Allstate is proposing revisions to Rate Adjustment Factors, Territorial Base Rates, Rate Transition Factor, and the Early Signing Discount. In addition, Allstate is introducing a new rating plan, Complementary Group Rating. Revisions to accommodate a Continuous Prior Insurance distinction have been made to the following rating plans: Policy Group, Rating Tier, Policy Class, Household Composition, and Accident Surcharge. Further information regarding these changes can be found in the enclosed attachments.

RULE 10 – POLICY CLASSIFICATION

Refer to the Automobile Rating Section to determine the appropriate factor for each classification.

A. Policy Classification

The named insured and any licensed driver residing in the named insured's household or employed by the named insured as a chauffeur will be classified based on the operator's gender, marital status, age and Continuous Prior Insurance as defined in Rule 80.

Notes:

1. Military Service

A person in active military service with the armed forces of the United States of America is not considered a resident in the named insured's household unless this person customarily operates an auto on the policy.

2. Married Classification

Legally married, for classification purposes, is defined as a person living with his or her spouse. Inability of married persons to live together because of employment obligations to the United States of America shall not deny such persons married classifications.

When an operator is added to or removed from the policy, the policy class factor will be reevaluated at the date of the endorsement.

RULE 13 – MODEL YEAR RATING

The following rating procedures apply to the determination of physical damage premiums for Private Passenger Automobiles:

1. The premium shall be calculated using the appropriate Model Year Factors found in the Automobile Rating Section. If a factor for a new model year is not shown, annually increase the factor for the most recent model year that is shown by the Subsequent Model Year Adjustment found in the Automobile Rating Section.

Note: Factors for new model years not shown in the Automobile Rating Section should be calculated in sequential order. The Subsequent Model Year Adjustment should be compounded annually for each new model year not shown.

2. For new business written and renewals Effective October 1 of each calendar year, the current model year changes to equal the next calendar year and then the factor for the eleventh preceding model year and all earlier model years shall be adjusted to equal the factor shown for the tenth preceding model year.

RULE 23 – POLICY GROUP

Each policy will be assigned to a Policy Group based on Continuous Prior Insurance as defined in Rule 80 and the Insurance Score assigned when the credit report(s) ordered in connection with the policy were requested.

A. INITIAL POLICY GROUP ASSIGNMENT

For Policy Group assignment on or after 08/16/2010 :

<u>Policy Group</u>	<u>Insurance Score</u>	<u>Continuous Prior Insurance</u>
1	0-226	Yes/No
2	227-252	Yes/No
3	253-264	Yes/No
4	265-274	Yes/No
5	275-282	Yes/No
6	283-291	Yes/No

47	574-588	Yes/No
48	589-609	Yes/No
49	610-642	Yes/No
50	643-999	Yes/No

B. Accident Surcharge Program

At fault accidents as defined in section A. are subject to an accident surcharge based on the following:

1. Surcharge Time Period

An accident is subject to being surcharged if:

- a. The At-Fault Accident occurred within the 36 Month Experience Period
- b. The At-Fault Accident of an added driver occurred within the 36 Month Experience Period.

2. Accident Assignment

- a) Accidents will be assigned to the operator involved in the accident.
- b) Accidents by Permissive Drivers will be charged to the named insured. If the named insured is a non-operator, the accidents by permissive drivers will be charged to the spouse. If there is no spouse, the accidents by permissive drivers will be charged to the oldest operator. If the operator associated with the accident becomes an operator on the policy, the accident will be assigned to that operator and will no longer be charged to any other operator. Any operator who is not listed on the policy but who has permission to operate an insured vehicle is a permissive operator.
- c) When an operator is dropped from a policy, any accidents attributable to that operator are removed from the policy.
- d) If an operator is added to the policy, any accidents attributable that operator are added to the policy

3. Administration of the Accident Surcharge Program

- a) To calculate the applicable surcharge, determine the date and timing of the chargeable accidents for the operators listed on the policy and Continuous Prior Insurance as defined in Rule 80. Refer to the Automobile Rating Section to determine the appropriate factor.

RULE 24 – HOUSEHOLD COMPOSITION FACTOR

To determine the appropriate factor for each coverage refer to the Household Composition Factor tables shown in the Automobile Rating Section.

The Household Composition factor will be determined based on the following characteristics of the Allstate Property and Casualty Insurance Company auto policy:

- A. The number of operators listed on the policy, **and**
- B. The number of Private Passenger Automobiles and/or Utility Automobiles which are insured for Coverage AA - Bodily Injury or Comprehensive under the policy. This number will include Private Passenger Automobiles and/or Utility Automobiles that have a future effective date, **and**
- C. Continuous Prior Insurance as defined in Rule 80.

Note: An automobile owned by and insured by an employer of the named insured or spouse and furnished for the regular use of the named insured or spouse and garaged at the residence of the named insured will be considered an automobile for the calculation of the policy's Household Composition factor. Only one such vehicle per policy will be incorporated into the Household Composition Factor.

RULE 50 – PRIOR INSURANCE DISCOUNT

This discount will be applied to policies where the named insured and spouse was a listed operator on a continuously maintained automobile liability insurance during the 6 months immediately preceding the effective date of the policy.

Exception: Military personnel returning from deployment overseas or active duty who had no need for liability insurance coverage while deployed or on active duty will qualify for the Prior Insurance Discount if:

1. they had liability insurance coverage prior to deployment, and
2. this coverage was either still in-force or expired within 30 days of the date of deployment, and
3. they have applied for insurance within 30 days of the date of their return to the United States.

Note:

All policies that qualify for the discount as new business will receive the discount at all subsequent renewals on all vehicles on the policy.

All policies that did not qualify for the discount as new business will receive the discount at their second and subsequent renewal on all vehicles on the policy.

The appropriate discount can be found on the rating pages.

RULE 51 – PRIOR NON-STANDARD CARRIER SURCHARGE

When the named insured or spouse is currently insured by a non-standard insurer, a factor shall be applied to the manual rates for coverages AA, BB, CC, DD, and HH on all vehicles on the policy. The surcharge factor shall apply until the named insured has maintained the policy continuously for three years.

The appropriate factors are shown in the Automobile Rating Section.

Note: For military personnel returning from deployment overseas or active duty who had a lapse in coverage while deployed or on active duty, qualification for this surcharge will be based on the insurer that issued the policy which was either still in-force or expired within 30 days of the date of deployment.

RULE 57 – RATING TIER DETERMINATION

Each policy shall be assigned a Rating Tier based upon the criteria below. At each renewal, the same rating tier will continue to apply unless the policy qualifies for a different rating tier under Section B of this rule. This rule applies to Private Passenger Automobiles and Utility Automobiles.

A. INITIAL RATING TIER DETERMINATION

Each policy will be assigned a Rating Tier based on the table below. Definitions for the four qualifiers follow the table.

Rating Tier	Years with Prior Carrier	Prior Bodily Injury Limit*	New Business Lapse	Continuous Prior Insurance (Y/N)
1	5+	> 100,000/300,000	No	Yes
2	5+	= 100,000/300,000	No	Yes
3	5+	< 100,000/300,000 and > 25,000/50,000	No	Yes
4	5+	<= 25,000/50,000	No	Yes
5	2-4	> 100,000/300,000	No	Yes
6	2-4	= 100,000/300,000	No	Yes
7	2-4	< 100,000/300,000 and > 25,000/50,000	No	Yes
8	2-4	<= 25,000/50,000	No	Yes
9	0-1	> 100,000/300,000	No	Yes
10	0-1	= 100,000/300,000	No	Yes
11	0-1	< 100,000/300,000 and > 25,000/50,000	No	Yes
12	0-1	<= 25,000/50,000	No	Yes
13	5+	> 100,000/300,000	Yes	Yes
14	5+	= 100,000/300,000	Yes	Yes
15	5+	< 100,000/300,000 and > 25,000/50,000	Yes	Yes
16	5+	<= 25,000/50,000	Yes	Yes
17	2-4	> 100,000/300,000	Yes	Yes
18	2-4	= 100,000/300,000	Yes	Yes
19	2-4	< 100,000/300,000 and > 25,000/50,000	Yes	Yes
20	2-4	<= 25,000/50,000	Yes	Yes
21	0-1	> 100,000/300,000	Yes	Yes
22	0-1	= 100,000/300,000	Yes	Yes
23	0-1	< 100,000/300,000 and > 25,000/50,000	Yes	Yes

Rating Tier	Years with Prior Carrier	Prior Bodily Injury Limit*	New Business Lapse	Continuous Prior Insurance (Y/N)
24	0-1	≤ 25,000/50,000	Yes	Yes
25	≥ 5	> 100,000/300,000	No	No
26	≥ 5	= 100,000/300,000	No	No
27	≥ 5	< 100,000/300,000 and > 25,000/50,000	No	No
28	≥ 5	≤ 25,000/50,000	No	No
29	≥ 2 and < 5	> 100,000/300,000	No	No
30	≥ 2 and < 5	= 100,000/300,000	No	No
31	≥ 2 and < 5	< 100,000/300,000 and > 25,000/50,000	No	No
32	≥ 2 and < 5	≤ 25,000/50,000	No	No
33	< 2	> 100,000/300,000	No	No
34	< 2	= 100,000/300,000	No	No
35	< 2	< 100,000/300,000 and > 25,000/50,000	No	No
36	< 2	≤ 25,000/50,000	No	No
37	≥ 5	> 100,000/300,000	Yes	No
38	≥ 5	= 100,000/300,000	Yes	No
39	≥ 5	< 100,000/300,000 and > 25,000/50,000	Yes	No
40	≥ 5	≤ 25,000/50,000	Yes	No
41	≥ 2 and < 5	> 100,000/300,000	Yes	No
42	≥ 2 and < 5	= 100,000/300,000	Yes	No
43	≥ 2 and < 5	< 100,000/300,000 and > 25,000/50,000	Yes	No
44	≥ 2 and < 5	≤ 25,000/50,000	Yes	No
45	< 2	> 100,000/300,000	Yes	No
46	< 2	= 100,000/300,000	Yes	No
47	< 2	< 100,000/300,000 and > 25,000/50,000	Yes	No
48	< 2	≤ 25,000/50,000	Yes	No

* Notes:

- A. When comparing the Prior Bodily Injury Limit (per person/per accident) from a prior carrier to see if it is greater than the Bodily Injury Limits in the table above, first compare the per accident limit of the prior carrier against the per accident limit in the table.
 - 1. If the per accident limit of the prior carrier is greater than the per accident limit in the table, the Prior Bodily Injury Limit of the prior carrier is greater.
 - 2. If the per accident limit of the prior carrier is less than the per accident limit in the table, the Prior Bodily Injury limit is not greater.
 - 3. If the per accident limit of the prior carrier is equal to the per accident limit in the table, then compare the per person limit of the prior carrier against the per person limit in the table.
 - a. If the per person limit of the prior carrier is greater than the per person limit in the table, the Prior Bodily Injury Limit of the prior carrier is greater.
 - b. If the per person limit of the prior carrier is less than the per person limit in the table, the Prior Bodily Injury limit is not greater.
- B. If the Bodily Injury Limit from the prior carrier is a Combined Single Limit, the Combined Single Limit should be compared to the per accident portion of the limits listed in the table.

1. Years with Prior Carrier

Years with Prior Carrier is defined as the maximum number of years immediately preceding the inception of the Allstate Property and Casualty Insurance Company policy in which either of the first two named insureds (if applicable) have held continuous automobile liability insurance with that carrier.

Notes:

- i. If the prior carrier was involved in a merger or acquisition or changed its name, the number of years insured with the prior carrier is the combined years of continuous automobile liability insurance with any carrier involved in such merger, acquisition or name change.
- ii. Military personnel returning from deployment overseas or active duty who had no need for liability insurance coverage while deployed or on active duty will be defined to have had continuous prior insurance if:
 - 1. they had liability insurance coverage prior to deployment, and
 - 2. this coverage was either still in-force or expired within 30 days of the date of deployment, and
 - 3. they have applied for insurance within 30 days of the date of their return to the United States

In these cases, the number of years insured with the prior carrier will be the sum of the number of years with the prior carrier as defined above prior to deployment plus the length of time deployed overseas.

2. Prior Bodily Injury Limit

The Bodily Injury limit from the prior carrier is the greater of liability limits immediately preceding the inception of the Allstate Property and Casualty Insurance Company policy of either of the first two named insureds (if applicable) for bodily injury to, or death of, each person as a result of any one accident.

Exception: For policies in Group 1 (as defined in Rule 8), the highest Bodily Injury Limit on the policy as of 05/17/2010 will be used in place of Prior Bodily Injury Limit for the purpose of initial Tier Determination.

3. Lapse at New Business

A policyholder will be considered to have a lapse at New Business if there is a lapse of 1 day or more between the expiration date of the prior policy and the New Business Effective date of the Allstate Property and Casualty Insurance Company policy.

Note: Military personnel returning from deployment overseas or active duty - who had no need for liability insurance coverage while deployed or on active duty will be defined to have had no lapse at new business if:

1. they had liability insurance coverage prior to deployment or call to active duty, and
2. this coverage was either still in-force or expired within 30 days of the date of deployment or call to active duty, and
3. they have applied for insurance within 30 days of the date of their return from deployment or active duty.

4. Continuous Prior Insurance as defined in Rule 80.

B. SUBSEQUENT RATING TIER DETERMINATION

The same Rating Tier will continue to apply unless at renewal the following applies:

1. Bodily Injury Limit

At renewal, the policy's Rating Tier will be reassigned if the Bodily Injury limit was increased to that of a different segment of Prior Bodily Injury Limits and was maintained for five consecutive years. The applicable Rating Tier will be reassigned pursuant to the table in Section A.

RULE 63 – EARLY SIGNING DISCOUNT

The applicable rates will be reduced by the appropriate factor shown in the Automobile Rating Section if the following criteria are satisfied:

1. The application for the Allstate Property and Casualty Insurance Company policy is completed 7 or more days before the policy effective date at New Business.
2. The policyholder has prior insurance with no lapse in coverage at New Business. A policyholder will be considered to have a lapse at New Business if there is a lapse of 1 day or more between the expiration date of the prior policy and the New Business effective date of the Allstate Property and Casualty Insurance Company policy.

Note: Military personnel returning from deployment overseas or active duty who had no need for liability insurance coverage while deployed or on active duty will be defined to have had no lapse at new business if:

1. they had liability insurance coverage prior to deployment, and
 2. this coverage was either still in-force or expired within 30 days of the date of deployment, and
 3. they have applied for insurance within 30 days of the date of their return to the United States.
3. The policyholder's prior insurance carrier is not Allstate Insurance Company, Allstate New Jersey Insurance Company, Allstate Indemnity Company, Allstate New Jersey Property and Casualty Insurance Company, Allstate Property and Casualty Insurance Company, Allstate Fire and Casualty Insurance Company, Castle Key Insurance Company, Northbrook Indemnity Company, Allstate Texas Lloyd's, or Allstate County Mutual Insurance Company.

Exception:

- a. In the case of a customer move from another state (i) if the policy was receiving the Early Signing Discount or the Future Effective Date Discount in the previous state or (ii) if the policy was not receiving the Early Signing Date Discount or the Future Effective Date Discount in the previous state but criteria (1) and (2) above are satisfied, the discount will also apply to the Allstate Property and Casualty Insurance Company policy.
- b. For policies effective on or after 7/1/2012, if the named insured or spouse was an operator on the prior policy but was not the named insured or spouse on the prior policy, the discount will apply to the Allstate Property and Casualty Insurance Company policy if both qualification criteria (1) and (2) above have been satisfied.

RULE 68—SAFE DRIVING CLUB®

The Safe Driving Club® will be applied to the otherwise applicable rates for all private passenger and utility automobiles on the policy when the policy meets the following eligibility requirements:

1. Safe Driving Club® Qualifications.

a. Initial Qualification:

For the 3-year period ending on the effective date of the policy, the named insured or spouse must have continuously maintained automobile liability insurance that has been issued by a standard insurance company and not through any residual market mechanism such as an assigned risk plan, joint underwriting facility or state fund. A policyholder will be considered to have continuously maintained automobile insurance at New Business if there has not been a lapse of 1 day or more between the expiration date of the prior policy and the New Business Effective date of the Allstate Property and Casualty Insurance Company policy.

Note: If the named insured or spouse obtained their license during the 3-year period, such person(s) must have continuously maintained the aforementioned automobile liability insurance from the time such person(s) obtained a driver's license.

Exception: Military personnel returning from deployment overseas or active duty who had no need for liability insurance coverage while deployed or on active duty will be defined to have had continuous prior insurance if:

1. they had liability insurance coverage prior to deployment, and
2. this coverage was either still in-force or expired within 30 days of the date of deployment, and
3. they have applied for insurance within 30 days of the date of their return to the United States.

b. Provided that the requirement in 1.a. is satisfied, an operator will qualify for the Safe Driving Club® if:

1. The operator has no At-Fault Accidents or permissive At-Fault accidents charged to them within the 60-Month Experience Period, as defined in Rule 22, and
2. For operators added mid-term, the operator has no At-Fault Accidents which occurred within the 60-Month Experience Period, as defined in Rule 22.

RULE 71 – AUTOMATIC TREND FACTOR

The automatic trend factor will be applied to the fixed expense premium at every policy period. The factor will be automatically adjusted each calendar year on 7/1, beginning 2011, and that factor will be used for new business policies written and renewals effective during the subsequent 12 month period.

The following rating procedures apply to the determination of the final Fixed Expense Premium for Private Passenger Automobiles:

1. For a new business policy written or renewal policy effective prior to 7/1 in a calendar year, use the automatic trend factor for the prior calendar year as shown in the Automobile Rating Section. For example, if a policy was effective 4/1/2010, the 2009 factor would apply.
2. For a new business policy written or renewal policy effective 7/1 and later in a calendar year, use the automatic trend factor for the calendar year as shown in the Automobile Rating Section. For example, if a policy was effective 10/1/2010, the 2010 factor would apply.
3. If not shown in the Automobile Rating Section, the automatic trend factor for a policy effective year beginning 7/1 will increase the factor for the preceding policy effective year beginning 7/1 by the Subsequent Automatic Trend Factor amount found in the Automobile Rating Section.

RULE 72 - RATE TRANSITION

Only Private Passenger and Utility Automobiles will be eligible for Rate Transition. The Rate Transition Factor for all business effective on or after 12/11/2013 is 1.000.

Development of Initial Rate Transition Factor

A. New Business

1. The initial Rate Transition Factor for new business policies written on or after 08/16/2010 is 1.000.

B. Renewal Business

1. For policies in Group 2 (as defined in Rule 8) determine the Reference Rate using the rating procedure that was in effect for Allstate Property & Casualty Insurance Company immediately prior to 08/16/2010.
 - a. Sum the following coverage premium for each vehicle: AA, BB, CC, DD, HG, HH, SS & SU
 - b. Reference Rate = Sum of (a) for all vehicles on the policy.
2. Determine the Manual Rate using the rating procedure that was in effect for Allstate Property & Casualty Insurance Company on 08/16/2010
 - a. Sum the following coverage premium for each vehicle: AA, BB, CC, DD, HG, HH, SS & SU
 - b. Manual Rate = Sum of (a) for all vehicles on the policy.
3. Determine the applicable Momentum Factor, using the relationship between the Reference Rate and the Manual Rate.
 - a. See Rate Pages (RP-15A) for Applicable Values of A and B.

<u>RELATIONSHIP</u>	<u>MOMENTUM</u>	<u>FACTOR</u>
$\frac{\text{MANUAL RATE}}{\text{REFERENCE RATE}} >$	A <input type="checkbox"/>	A
$\frac{\text{MANUAL RATE}}{\text{REFERENCE RATE}} <$	B <input type="checkbox"/>	B
$B \leq \frac{\text{MANUAL RATE}}{\text{REFERENCE RATE}} \leq A$	<input type="checkbox"/>	Not Applicable Continue to Step 4

Note: Once established the relationship between the Manual and Reference Rate will not change.

RULE 77 - RESERVED FOR FUTURE USE

RULE 78 - RESERVED FOR FUTURE USE

RULE 79 – COMPLEMENTARY GROUP RATING

Each policy will be assigned to a Micro-Segment based on the following criteria:

- a. the birth date of the oldest operator on the policy,
- b. the number of Years with Prior Carrier, as defined in Rule 57,
- c. Territory, as defined by current address, and
- d. the gender of the oldest operator on the policy.

When an operator is added or removed from a policy or the address assigned to the policy changes, the Micro-Segment will be re-evaluated at the time of endorsement.

Based on its Micro-Segment, each policy will be placed into a Complementary Group based on criteria in the Complementary Group Rating Assignment Table.

To determine the appropriate factor for each coverage refer to the Complementary Group Rating Factor Table shown in the Automobile Rating Section.

RULE 80 – CONTINUOUS PRIOR INSURANCE

Continuous Prior Insurance is defined as the named insured or spouse having prior liability insurance for a minimum of 12 months that, as of the written date, is either still in force or has not expired more than five days immediately preceding the New Business effective date of the Allstate Property and Casualty Insurance Company policy. Policies written prior to 10/7/2013 will be considered to have continuous prior insurance.

For purposes of this rule, the following applicants will also be considered to have met the criteria for Continuous Prior Insurance defined above:

- 1) Named Insured or spouse who, as of the written date, obtained their license during the 12 month period immediately preceding the New Business effective date of the Allstate Property and Casualty Insurance Company policy and have continuously maintained automobile liability insurance from the time they obtained a driver's license with no more than a 5-day lapse immediately preceding the New Business effective date of the Allstate Property and Casualty Insurance Company policy.
- 2) Military personnel returning from deployment overseas or active duty who had no need for liability insurance coverage while deployed or on active duty if:
 - i) they had liability insurance coverage prior to deployment, and
 - ii) this coverage was either still in-force or expired within 30 days of the date of deployment, and
 - iii) they have applied for insurance within 30 days of the date of their return to the United States.

**WISCONSIN
VOLUNTARY PRIVATE PASSENGER AUTO
GEOMETRIC AVERAGES**

How to calculate a geometric average:

- a) Multiply all applicable factors. Round to 4 decimals after each multiplication.
- b) Take the n^{th} root of step a), where 'n' is the number of operators. Round to 2 decimals.

Example:

If there are 3 operators with factors 1.1, 1.2, and 1.3, the geometric average would be:

a) $1.1 * 1.2 = 1.3200$, $1.3200 * 1.3 = 1.7160$ (rounding to 4 decimals after each multiplication)

b) $1.7160^{(1/3)} = 1.1972$ Round to 1.20

Therefore, the geometric average of 1.1, 1.2, and 1.3 is **1.20**.

Tool to calculate geometric average:

Enter value for each
operator. There
should be a factor for

Operator	each operator.	Step a)	Step b)
1	1.1	1.1000	
2	1.2	1.3200	
3	1.3	1.7160	
4		1.7160	
5		1.7160	
6		1.7160	
7		1.7160	
8		1.7160	
9		1.7160	
Total			1.20

**WISCONSIN
VOLUNTARY PRIVATE PASSENGER AUTO
POLICY CLASS FACTOR**

POLICY CLASS FACTOR CALCULATION

Complete the steps below for all applicable coverages. Round to 4 decimals after each step.

Step 1: Based on number of male and female operators on the policy, obtain a value from Value Table 1a and find the corresponding factor from Factor Table 1a.

Step 2: Based on number of single operators, married operators, operators aged <25, and operators aged 25+ on the policy, obtain a value from Value Table 1b and find the corresponding factor from Factor Table 1b.

Step 3: Based on age and gender, obtain a value from Value Table 1c for each operator and calculate the geometric average of the corresponding factors from Factor Table 1c to obtain a factor for step 3.

Step 4: Multiply steps 1, 2, and 3 together to obtain the policy class factor to be applied to all vehicles on the policy.

See **RP-8A** for instructions on how to calculate the geometric average.

**WISCONSIN
VOLUNTARY PRIVATE PASSENGER AUTO
ACCIDENT SURCHARGE
(Rule 22)**

CALCULATION OF POLICY SURCHARGE FACTOR

Complete the steps below for all applicable coverages

1. For each operator on the policy, determine a point value based on the table below.
2. Based on the point value, find the corresponding factor from the Accident Surcharge Factor Table.
3. To obtain the policy surcharge factor, calculate the geometric average of all factors.

See **RP-8A** for instructions on how to calculate the geometric average.

Years Since Most Recent Accident	MERIT POINTS VALUE			
	Years Since 2nd Most Recent Accident			
	0 - 1	1 - 2	2 - 3	none
0 - 1	9	8	6	3
1 - 2		7	5	2
2 - 3			4	1
none				0

Each Additional Accident	+4 Merit Points

ACTUARIAL STANDARDS OF PRACTICE

This document confirms compliance with Actuarial Standards of Practice that are applicable to the preparation of statewide rate filings performed by casualty actuaries as stated in “Applicability Guidelines for Actuarial Standards of Practice” (American Academy of Actuaries, September 2004).

ATTACHMENT II

Summary of Rate Level Indication

**ALLSTATE PROPERTY AND CASUALTY INSURANCE COMPANY
VOLUNTARY PRIVATE PASSENGER AUTOMOBILE
WISCONSIN**

SUMMARY OF THE DEVELOPMENT OF STATEWIDE RATE LEVEL INDICATION

A rate level indication is a test of the adequacy of expected revenues versus expected costs during the future policy period. Therefore, to derive the indicated rate level need accurately, Allstate's historical premium and loss experience needs to be adjusted. In accordance with Section 3.1 of Actuarial Standard of Practice No. 13, *Trending Procedures in Property/Casualty Insurance Ratemaking*, Allstate trends the underlying historical experience for premiums, losses, and fixed expenses to appropriately reflect historical and projected changes in these components of the rate level indications. In addition, historical premiums must be adjusted to reflect the current rate level; while historical losses must be adjusted to reflect expected development over time and to address volatility in the actual losses due to catastrophes. Details of these necessary adjustments to the historical data used in the rate level indication are described in this memorandum.

The calculation of the rate level indication is consistent with the Statement of Principles Regarding Property and Casualty Insurance Ratemaking.

Attachment III, Exhibit 1.0 summarizes the indicated rate level change. The determination of the overall indicated change is included in **Exhibits 1.1-1.7**, and described in detail throughout this filing.

Due to the fact that Allstate Insurance Company business has been moved to Allstate Property and Casualty Insurance Company, the data underlying this filing for determination of rate level need is based on combined historical experience of both companies.

In this filing, Uninsured Motorist coverage (UM) and Underinsured Motorist coverage (UIM) had losses developed separately and on a basic limits level. Premiums were also adjusted to a basic limit level. Therefore, the initial UM/UIM rate level indication is at a basic limits level. In order to adjust to a total limits level, the indication was adjusted for the relative rate level need of the UM/UIM increased limit factors. This adjustment is shown in **Attachment III, Exhibit 1.0**.

ADJUSTMENTS TO LOSSES

Underlying Data

The data used in the calculation of the rate level indication was selected in accordance with the considerations listed in Section 3.2 of Actuarial Standard of Practice No. 23, *Data Quality*. Please reference **Exhibits 2.1-2.6** for the fiscal accident years used in developing the rate level indications. Total limits data was used for coverages other than Uninsured Motorist (UM) and Underinsured Motorist (UIM) coverage. UM and UIM utilized base limits coverage loss data.

Accident Year Weights

In order to develop a credible measure of the indicated rate level, it is sometimes necessary to use more than one year of historical loss experience. A maximum of three accident years is combined to determine the indicated provision for loss and loss adjustment expense for each coverage. The number of years used by coverage and the credibility per year is based upon a credibility procedure from the paper "On the Credibility of the Pure Premium" (Proceedings of the Casualty Actuarial Society, Vol. LV, 1968), by Mayerson, Jones and Bowers, and the appendix of the paper "Classical Partial Credibility with Application to Trend" (Proceedings of the Casualty Actuarial Society, Vol. LXXIII, 1986), by Venter and actuarial judgment. The analysis for each coverage was completed using a k value of .075 and a P value of 90.0%; these parameters reflect the desire that the observed pure premium should be within 100k% of the expected pure premium with probability P . Assuming a Poisson frequency, an empirical review of the severity size of loss curve provides a gauge of credibility based on the number of claims closed with a payment.

This approach for incorporating credibility in determination of the accident year weights is consistent with the Current Practices and Alternatives detailed in Section 3 of Actuarial Standard of Practice No. 25, *Credibility Procedures Applicable to Accident and Health, Group Term Life, and Property/Casualty Coverages*.

Loss Development

Allstate's standard loss development procedure is to select ultimate accident year losses after analyzing estimates developed using the Link Ratio and Additive methods. Accident year incurred losses are developed for the liability coverages. Accident year paid losses are developed for the physical damage coverages.

While the Link Ratio method assumes that future development is proportional to losses that have already emerged as of a given evaluation date, the Additive method assumes that future development is proportional to the number of earned exposures in the accident period, where the expected development per exposure is based on historical development patterns per exposure, adjusted to account for differences in frequency and severity over time. Allstate believes the approach of considering two loss development procedures when estimating ultimate losses better upholds the suggestion contained in the Statement of Principles Regarding Property and Casualty Loss and Loss Adjustment Expense Reserves that "Ordinarily the actuary will examine the indications of more than one method when estimating the loss and loss adjustment expense liability for a specific group of claims."

To calculate estimated ultimate losses using the Link Ratio method, historical age-to-age link

ratios are calculated, which represent loss development between different evaluation periods. An average of the historical link ratios is then used to estimate the ultimate level of paid losses to be used in ratemaking. This method assumes that historical loss development patterns can be used to estimate future loss development on current immature claims. The link ratio was not applied to a large Bodily Injury claim that was closed at policy limits in the fiscal accident year ending 3/31/2012.

For the Additive loss development method, historical losses are first trended to today's price level using selected pure premium trends. This is done to avoid distortions due to changes in the underlying loss costs. Please note that the selected pure premium trend that is used in loss development often differs from the selected trend that applies to the underlying data. This is due to both the consideration of the data used when selecting pure premium trend for the underlying data, as well as the different lengths of trend periods in each analysis. Trended additive amounts per exposures are calculated, which represent trended loss development between different evaluation periods. An average of the historical trended additive amount per exposure is then used to estimate the ultimate trended level of paid losses. Trended age-to-ultimate additive amounts per exposure are multiplied by earned exposures for each accident year to calculate trended losses that have yet to emerge. A final step in the Additive method is to detrend the trended losses yet to emerge. Losses are detrended because the application of trend is accounted for in a separate step in the ratemaking process. This method assumes that historical loss development patterns per exposure can be used to estimate future loss development on current immature claims.

Refer to **Exhibits 3.1 through 4.6** for the loss development of each coverage using both the Link Ratio and Additive Methods of loss development. A summary of the estimated ultimate losses using each method as well as the selected ultimate losses is shown in **Exhibit 5**.

Loss Adjustment Expenses

Allocated loss adjustment expenses are included in both incurred losses and paid losses. Losses in the experience period, for each coverage, have been adjusted to account for unallocated loss adjustment expenses (ULAE). A provision is developed using countrywide Allstate Insurance Group data. A three-year average of the ratios of countrywide, combined-lines, calendar year ULAE to countrywide, combined-lines, calendar year incurred losses is used to determine the ULAE provision. The average ratio is then applied to the losses for each coverage for each year used in the formula calculation. The ULAE ratio that has been used in this filing is shown in **Exhibit 6**.

Loss Trend

The past changes in actual frequency and severity on a twelve-month-moving basis (evaluated at each quarter) were analyzed for each coverage. The data has been adjusted as described below.

Frequency and severity amounts are calculated using the methodology described in "The Effect of Changing Exposure Levels on Calendar Year Loss Trends" (*Casualty Actuarial Society Forum*, Winter 2005) by Chris Styrsky. This methodology helps to more consistently match losses and claims paid with the exposures that produced the claims.

Exhibits 8.1-8.6 display the paid pure premium trends. The credibility level of Allstate loss trend data was analyzed based on the number of claims paid in the latest experience year, which is consistent with the criteria for selecting a credibility procedure outlined in Section 3 of Actuarial Standard of Practice No. 25, *Credibility Procedures Applicable to Accident and Health, Group Term Life, and Property/Casualty Coverages*.

After considering past results, credibility level of Allstate data, and actuarial judgment, annual pure premium trends were selected for each coverage. The selected pure premium trends and projections are displayed in **Exhibit 7**. These annual selections are used to project the data from the average occurrence date of the experience period to the average occurrence date of the future policy period.

This approach for selecting pure premium trends and projections is consistent with the Current Practices and Alternatives detailed in Appendix 1 – Background and Current Practices of Actuarial Standard of Practice No. 13, *Trending Procedures in Property/Casualty Insurance Ratemaking*.

Catastrophes

An adjustment has been made to Comprehensive coverage losses to more appropriately account for catastrophes in the base data. All actual catastrophe losses during the experience period were removed and then replaced with a provision to reflect expected catastrophe losses. The provision was calculated by dividing total catastrophe losses by total Comprehensive coverage incurred losses excluding catastrophes. The catastrophe provision is developed in **Exhibit 9** and is applied to the Comprehensive coverage losses in **Exhibit 2.6**. This adjustment to account for catastrophes is consistent with the Analysis of Issues and Recommended Practices detailed in Section 3.4 of Actuarial Standard of Practice No. 39, *Treatment of Catastrophe Losses in Property/Casualty Insurance Ratemaking*.

EXPENSES AND PROFIT PROVISION

The expense provisions described below were derived in accordance to Section 3.2, Determining Expense Provisions, of Actuarial Standard of Practice No. 29, *Expense Provisions in Property/Casualty Insurance Ratemaking*.

Exhibit 10 shows the expense provisions used in developing the current fixed and variable expense ratios, as well as the underwriting profit and debt provisions.

Fixed Expenses

Provisions

General and Other Acquisition Expense

The provisions for general expense and other acquisition expense are based on countrywide data. To develop the provision for general and other acquisition expenses, a three-year average of countrywide, combined-lines, calendar year incurred expense divided by countrywide calendar year direct earned premium was calculated. Because premiums charged for the net cost of reinsurance (NCOR) do not include provisions for general and other acquisition expenses, the earned premium used in the development of the general and other acquisition expenses is countrywide direct earned premium less countrywide NCOR premium. The provision for other acquisition expense has been reduced by the amount of installment fees collected. In addition, the provision has been adjusted for premiums written off.

The expense provisions for general and other acquisition expenses are shown in **Exhibits 11 and 12**, respectively.

Licenses & Fees

A provision for licenses and fees that do not vary by premium size is determined by taking the arithmetic average ratio of these licenses and fees from the latest three calendar years in Wisconsin. The provision for licenses and fees is considered, along with the general and other acquisition expense provisions, to be a fixed expense and is shown in **Exhibit 10**.

Rate Need Calculations

With the implementation Allstate's new rating program on August 16, 2010, Allstate shifted its application of fixed expenses from an item-based amount built into the underlying rate for each coverage to a separate policy-based premium amount that is applied to the Bodily Injury coverage premium of the first vehicle on the policy. With this filing, Allstate will separately categorize fixed expenses for the purpose of calculating the statewide rate level indication.

Indicated Rate Level

In developing the required dollar provision for fixed expenses used in the calculation of the rate level need, the three year average fixed expense ratio is first applied to the three year total earned premium of Wisconsin. This three year earned premium is developed using the same three year period used in the calculation of the average expense ratio. The three year fixed expense provision is loaded for variable expenses and profit, and then divided by the three year total

number of earned exposures that are the first vehicle on their policies to have Bodily Injury coverage. This calculates the indicated average dollar amount of fixed expense per policy. This calculation is shown on **Attachment III, Exhibit 2.7**.

Trend (Inflation)

The method used to calculate the fixed expense trend is similar to the method used by the Insurance Services Office (I.S.O.) and other competitors to determine a fixed expense trend. The method utilizes the CPI (Consumer Price Index) and the ECI (Employment Cost Index – Insurance Carriers, Agents, Brokers, & Service) and is discussed by Geoffrey Todd Werner, FCAS, MAAA in his paper Incorporation of Fixed Expenses, which was published in the *CAS Forum* (Winter 2004). Based on a review of the historical indices, an annual percentage change is selected for each index. These selected annual percent changes are then weighted together using the distribution of the Allstate expenditures in the latest calendar year for the two broad expense categories that these indices represent. This method is expected to produce stable and reasonable estimates of the true trend in fixed expenses and is consistent with the Current Practices and Alternatives detailed in Appendix 1 – Background and Current Practices of Actuarial Standard of Practice No. 13, *Trending Procedures in Property/Casualty Insurance Ratemaking*. In **Attachment III, Exhibit 1.7**, this trend is applied to the required fixed expense premium described in the preceding paragraph. The factor to adjust for subsequent change in Fixed Expense is shown in **Exhibit 13**.

Variable Expenses

Commission and Brokerage Expense

The proposed commission and brokerage expense provision has been developed from the most recent calendar year commission and brokerage incurred expense ratio in Wisconsin. The provision is shown in **Exhibit 10**.

Taxes

The provision for taxes is determined by taking the currently prescribed Wisconsin premium tax ratio and adding to that the arithmetic average ratio of other assessments that vary by the size of the premium from the latest three calendar years. The provision is shown in **Exhibit 10**.

Underwriting Profit Provision

Allstate performs two separate cost of capital analyses in the estimation of its cost of equity. The first uses the Fama-French Three-factor Model (FF3F), which reflects developments in the field of financial economics as published in the *Casualty Actuarial Society Forum, Winter, 2004 and in Journal of Risk and Insurance, Vol. 72, No. 3, September 2005* (“Estimating the Cost of Equity Capital For Property-Liability Insurers” by J. David Cummins and Richard D. Phillips). The second is a Discounted Cash Flow (DCF) analysis, which estimates the expected future cash flows to investors in order to gauge the proper cost of equity. Once both the DCF and FF3F estimates had been calculated, Allstate selected a cost of equity of 9.50%, which reflected the outcomes of both analyses.

An analysis of premium, loss and expense cash flows is used to calculate the investment income on policyholder supplied funds (PHSF). This methodology is one of the two examples given in

Actuarial Standard of Practice, No. 30, *Treatment of Profit and Contingency Provisions and the Cost of Capital in Property/Casualty Insurance Ratemaking*, as appropriate methods for recognizing investment income from insurance operations (page 4).

The calculations detailing this investment income analysis are found in **Exhibits 14.1 and 14.2** for liability and physical damage coverages, respectively. The expected investment yield rate (applied as a force of interest) used to discount losses and expenses includes anticipated net investment income and anticipated capital gains, both realized and unrealized. Operating cash flows are discounted to the average time of earnings of premium and profit for the policy year, rather than to the start of the policy year.

The final pre-tax underwriting profit provision at present value is shown in **Exhibit 10**.

Debt Provision

The cost of debt is listed as a separate provision in the Variable Expense and Profit Ratio. The debt provision amount is shown in **Exhibit 10**.

ADJUSTMENTS TO PREMIUMS

Current Rate Level

All premiums in the experience period were adjusted to current rate level. Allstate uses the "Miller-Davis-Karlinski" method to do this since it more accurately calculates factors to current rate level in instances when exposures are changing throughout the year, whether through growth, shrinkage or seasonality. When exposures are, in fact, written uniformly throughout the year, this method produces approximately the same answers as the parallelogram method.

The Miller-Davis-Karlinski method is also used to bring premiums to current rate level prior to calculating the changes in average premium used in the premium trends.

Premium Trend

In addition to bringing premiums to current rate level, changes in the average written premium at the current premium level were reviewed. Unlike losses, premium is relatively stable. Only the latest year of premium is used in the calculation of the indication, which eliminates the need for premium trend. Premium projections are still selected to account for shifts in the distribution of various underlying factors. Since the effects on losses caused by these shifts are reflected in the loss projections, it is important that Allstate also account for the anticipated future changes in premiums.

The projected average earned premiums as well as the calculation of the premium projection factors are displayed in **Exhibits 15 and 16**, respectively. These annual selections are used to project the data from the average earned date of the experience period to the average earned date of the future policy period. Premium trend data is provided in **Exhibits 17.1-17.6**.

Uninsured Motorist and Underinsured Motorist coverage premiums were adjusted by an average increased limit factor in order to adjust to a basic limits level, consistent with the development of losses. This adjustment can be found on **Exhibit 15.4**.

This approach for selecting premium trends is consistent with the Current Practices and Alternatives detailed in Appendix 1 – Background and Current Practices of Actuarial Standard of Practice No. 13, *Trending Procedures in Property/Casualty Insurance Ratemaking*.

Development of Required Fixed Expense Premium
Fixed Expenses

Part A: Derivation of Average Fixed Expense Ratio

	(1)	(2)	(3)	(4)	(5)
	Three-Year Total Earned Premium	Three-Year Average Fixed Expense Ratio	Variable Expense Ratio	Fixed Expense Adjusted for Variable Expense (2)/[1-(3)]	Average Fixed Expense Ratio, Weighted by Premium
Liability Coverages (incl. allocated FE Premium)	\$112,634,504	11.1 %	20.0 %	13.9 %	
Physical Damage Coverages (incl. allocated FE Premium)	\$108,975,433	11.1 %	22.3 %	14.3 %	14.1 %

Part B: Derivation of Total Required Average Fixed Expense Premium

	(6)	(7)	(8)	(9)
	Total Three-Year Earned Premium	Three-Year Total Policy-first Bodily Injury Earned Exposures *	Average Policy Earned Premium (6)/(7)	Total Required Average Fixed Expense Premium (8)*(5)
	\$221,609,937	183,140	\$1,210.06	\$170.62

* This is the number of earned exposures which are the first vehicle on their policies that have Bodily Injury coverage. This is a proxy for the number of Policies.

Calculation of Premium Trend Factor

<u>Coverage</u>	<u>Selected Annual Premium Impacts</u> <u>Projected</u>
Bodily Injury	-3.00%
Property Damage	-2.00
Medical	-3.50
Uninsured / Underinsured Motorist	0.00
Collision	3.50
Comprehensive	0.50

	<u>Current Year</u>
1) Average Earned Date of Proposed Policy Period	9/11/2014
2) Mid-Point of Current Year's Experience Period	9/30/2012
3) Experience Period Ended	3/31/2013
4) Midpoint of Experience Period	9/30/2012
5) Historical: Number of Years from (4) to (2)	0.000
6) Projected: Number of Years from (2) to (1)	1.948

Calculation of Trend Factors

- (a) Historical Premium Factors are the Annual Historical Impacts plus unity compounded for the number of years in (5)
- (b) Projected Premium Factors are the Annual Projected Impacts plus unity compounded for the number of years in (6)
- (c) Factor to Adjust to Projected Premium Level = (a) x (b)

SUMMARY OF MANUAL RULE AND RATE CHANGES

Rules Manual:

- I-3
 - Add Rules 77 & 78 as Reserved for Future Use
 - Add Rule 79 – Complementary Group Rating
 - Add Rule 80 – Continuous Prior Insurance
- 10-1
 - Add “Continuous Prior Insurance as defined in Rule 80”
- 13-1
 - Add clarification on when new business and renewal business are impacted
- 22-5
 - Add “Continuous Prior Insurance as defined in Rule 80”
- 23-1
 - Add “Continuous Prior Insurance as defined in Rule 80”
 - Add Yes/No column to Policy Group Assignment chart
- 24-1
 - Add “Continuous Prior Insurance as defined in Rule 80”
- 50-1
 - Add verbiage to include active duty
- 51-1
 - Add verbiage to include active duty
- 57-1 through 57-4
 - Change ‘three qualifiers’ to ‘four qualifiers’
 - Add Yes/No column to Rating Tier Determination chart & expand to 48 tiers
 - Add “Continuous Prior Insurance as defined in Rule 80”
- 63-1
 - Add verbiage to include active duty
 - Remove reference to Iraq and Afghanistan
 - Add clarification to qualifying criteria to exception b.
- 68-1
 - Add verbiage to include active duty
- 71-1
 - Add clarification on Fixed Expense Premium when new business and renewal business are impacted. Please note that the Automatic Trend Factors have been set to 1.000 on the Rate Pages for all years.
- 72-1
 - Add note to change Rate Transition Factors to 1.0 after implementation
- 77-1
 - Add Rule 77 – Reserved for Future Use
- 78-1
 - Add Rule 78 – Reserved for Future Use
- 79-1
 - Add Rule 79 – Complementary Group Rating
- 80-1
 - Add Rule 80 – Continuous Prior Insurance

GENERALIZED LINEAR MODELS PROCEDURE

Allstate has developed a new loss model using Generalized Linear Models which is significantly more predictive of expected loss costs than prior loss models. Frequency and Severity models are built for each of seven coverages: Bodily Injury, Property Damage, Comprehensive, Collision, Uninsured Motorists and Medical Payments. The frequency prediction is multiplied by the severity prediction in order to calculate an estimate of pure premium for each policy.

The modeling dataset consists of claims, losses, and policy characteristics for policies that have renewed with Allstate for fewer than six years for exposure years 2008-2011 for all other coverages. All vehicles countrywide are included with the exception of those in the following states: CA, HI, MI, and NC.

The data was split into three subsets for model development. The model structure was built on a 60% Train set, consistency and balance tests were conducted on a 30% Test set in order to refine the model structure, and final validation was performed on a 10% Holdout set in order to show the model's predictive power on unseen data. Final expected loss costs were then calculated from running the models on the full datasets.

PRIVATE PASSENGER AUTOMOBILE
WISCONSIN**

COMPLEMENTARY GROUP RATING

With this filing, Allstate is introducing a new rating plan, Complementary Group Rating (CGR) to enable us to incorporate the new loss model. Each policy is assigned to a Complementary Group using characteristics described later in the filing.

**ALLSTATE PROPERTY AND CASUALTY INSURANCE COMPANY
PRIVATE PASSENGER AUTOMOBILE
WISCONSIN**

CONTINUOUS PRIOR INSURANCE

With this filing, Allstate will be introducing a new rating variable, Continuous Prior Insurance. Continuous Prior Insurance is defined as the named insured or spouse having prior liability insurance for a minimum of 12 months that, as of the written date, is either still in force or has not expired more than five days immediately preceding the New Business effective date of the Allstate Property and Casualty Insurance Company policy. Policies written prior to 10/7/2013 will be considered to have continuous prior insurance.

The Continuous Prior Insurance variable will be added as an additional criteria to several existing rating plans as illustrated in the rate pages and as follows:

- Policy Classification – Rule 10
- Accident Rating – Rule 22
- Policy Group – Rule 23
- Household Composition – Rule 24
- Rating Tier – Rule 57

At this time, the rating factors for the above rating plans will not vary by Continuous Prior Insurance.

For further details on this rating variable, please refer to Rule 80 in the Rules manual for the definition of Continuous Prior Insurance and the Rules associated with the above rating plans.

EARLY SIGNING DISCOUNT

With this filing, Allstate is updating the Early Signing (ESD) Discount. This discount will no longer be removed after the first five policy periods. Please see below for the current and proposed factors by Number of Times Renewed (NTR).

Bodily Injury, Property Damage, Medical, Collision, Comprehensive

	Current	Proposed
ESD-Yes (NTR=0)	0.88	0.88
ESD-Yes (NTR=1)	0.90	0.88
ESD-Yes (NTR=2)	0.92	0.88
ESD-Yes (NTR=3)	0.95	0.88
ESD-Yes (NTR=4)	0.97	0.88
ESD-Yes (NTR=5+)	1.00	0.88

For further details on this rating plan, please refer to Rule 63 in the Rules manual.

PRIVATE PASSENGER AUTOMOBILE
WISCONSIN**

OTHER RATING PLANS

The following rating factors are being changed:

- Rate Transition Factors will be set to 1.00 for all business effective on or after 12/11/2013. This has the effect of bringing all policies to manual rates.
- The Rate Adjustment Factors by coverage have been revised in order to target a 2.4% overall rate change, after the rating plan revisions presented in this filing have all been considered.

October 1, 2013

Re: Filing R26396 Confidentiality

To Whom this May Concern,

Allstate is prepared to submit a filing which includes information regarding the implementation of a new automobile insurance rating plan. This new rating plan will be utilized in the Allstate Property and Casualty Insurance Company Private Passenger Automobile program in the state of Wisconsin.

As allowed under Wisconsin Uniform Trade Secrets Act (Wisconsin Stat. §§19.36 and 134.90) and under common law and any other applicable law, Allstate is requesting the Department to hold information related to the Complementary Group rating plan as a trade secret of Allstate.

Allstate requests that the Department permit Allstate to be able to file information regarding this rating plan clearly labeled as trade secret per the Confidentiality Index on a confidential basis and that this information be withheld from public inspection.

Allstate has invested in creating an accurate and operationally efficient methodology through the use of Complementary Group Rating (CGR) to enable us to incorporate new loss models. With Complementary Group Rating, micro-segments are determined using the four criteria described in Attachment V. Micro-segments are then assigned to a Complementary Group based on the considerations described.

Allstate has taken reasonable and measured steps to maintain its trade secret regarding this methodology including restricting access to it via a locked network drive only accessible to those employees who require access in order to perform their work function.

Allstate considers this methodology proprietary and confidential, as it reflects a specific process created by the Company for business purposes.

This is why Allstate derives independent economic value from the structure and assignment methodology not being generally known to other persons or its competitors because it reflects nearly two years of development and implementation costs. If it were readily disclosed in a widespread manner, competitors would gain an economic advantage by: (1) being able to avoid development costs and time; (2) reducing Allstate's market advantage by being able to implement quicker without having to develop their own formulas; and (3) using Allstate's processes which are more thoroughly reviewed and tested than theirs.

Allstate would appreciate the Department's cooperation in keeping its trade secret confidential for all the reasons outlined above. Allstate believes its request is reasonable in nature and can be accommodated by this Department without difficulty. Please contact us if you have any questions regarding confidentiality.

Your time and attention to this request for certain information to be held as trade secret and withheld from public inspection is much appreciated.

I look forward to your response.

Sincerely,
Steve Burbick

COMPLEMENTARY GROUP RATING

With this filing, Allstate is introducing a new rating plan, Complementary Group Rating (CGR) to enable us to incorporate the new loss model as described on Page 1 of Attachment IA. With Complementary Group Rating, micro-segments are determined using the following four criteria: territory, birth date of the oldest operator, years with prior carrier, and gender of oldest operator. All policies are evaluated based on these four characteristics and placed into their appropriate micro-segment.

Micro-segments are then assigned to a Complementary Group based on the following considerations:

1. Expected loss costs (from the loss model described on Page 1 of Attachment IA)
2. Policyholder disruption
3. Marketplace considerations

After the application of the Complementary Group Rating factor, the rate for a particular micro-segment is closer, or just as close, to its indicated rate under the new loss model than it would be under the current rating plan.

All possible combinations are accounted for in the micro-segment assignment table, not just those representing existing Allstate Property and Casualty Insurance Company customers. The above considerations apply to micro-segments including existing Allstate Property and Casualty Insurance Company customers and to the extent applicable for micro-segments that do not include existing Allstate Property and Casualty Insurance Company customers. As our customer base changes and to ensure that we are adjusting the Complementary Rating Group assignments based on our continued review of the above assignment considerations, Allstate anticipates filing frequent updates to the Complementary Rating Group table. Please reference Attachment VI for the Complementary Group assignment table.
