

SPEAKER BIOS

Abiola Afolayan is an international lawyer and currently serves as co-director in the Policy and Research Institute at Bread for the World, a U.S.-based Christian advocacy NGO focused on addressing hunger and its root causes, since 1974. Her portfolio includes work with the World Food Programme in Rome, Italy, as a foreign affairs staffer on Capitol Hill, as adjunct professor at George Washington University, and at the American Bar Association as Vice Chair of Programs for the Section on Energy and Environment and the Rule of Law Initiative-Africa Council. She is the author of "A Seat at the Table for Women, Girls and Movements: A Manifesto on Peace and Security" and is currently working on a book titled "Climate, Gender, and Financing in Africa." Abiola speaks about food security globally, including at the global food security research organization International Crops Research Institute for the Semi-Arid Tropics (ICRISAT) in Hyderabad, India where she led the discussion on the theme "Integrating Gender, Youth, and Social Inclusion in Dryland Agri-Food Systems." She is also a recipient of the Humanitarian Award for the International Law Conference on the Status of Women, hosted by the United Nations and African Affairs Committees of the New York City Bar Association for her work advancing the human rights of women and girls and the pursuit of justice.

Jane Black is a Washington, D.C.-based food journalist who covers food, nutrition and sustainability for national publications including The Wall Street Journal, The New York Times and The Washington Post. In 2022, she launched the podcast Pressure Cooker, which explores parenthood, feeding kids and how it all became so complicated. The show won a James Beard award for audio reporting in 2023 for its two-part report on the history of school lunch.

Jeanne Blankenship oversees the Academy's public policy strategy — leading staff and volunteers in advocacy, promoting public health initiatives, and collaborating with legislators and policy leaders at every level of government to promote health and reduce the burden of chronic disease through nutrition services and interventions. Key areas include nutrition policy and legislation, professional licensure, payment and reimbursement, Academy alliances and the Academy's political action committee (ANDPAC).

Lola Bloom has dedicated her career to providing the space, time, and resources for children and families to creatively experience the world through food, nature and art. She has been the Director of Food and Wellness at DC Bilingual Public Charter School since 2016, and is starting to work with other schools as a consultant to build capacity to their programs. In these roles she fundraised, built and developed a scratch-prep kitchen for over 600 students and staff; created an educational Food Lab and 7,000 sq ft garden for Culinary and Gardening classes, and designed a vibrant family engagement program around food and wellness. Lola has shared her passion for this work locally and nationally through partnerships with Food Corps, The Nature Conservancy, and Share our Strength. She was recently recognized by the Chef Ann Foundation as a School Food Renegade.

Alison Brown, PhD, RDN is a public health nutrition researcher committed to addressing diet-related health disparities through research, community empowerment, and systems change. Dr. Brown's past research explored immigrant health and diet and cardiovascular disease outcomes. Currently, she serves as a Program Director at the National Heart Lung Blood Institute where her work centers on the social determinants of health and nutrition health disparities. She is the Past Chair of the National Organization of Blacks in Dietetic and Nutrition and serves as Adjunct Faculty at Prince George's Community College. She is a former AAAS Science and Technology Policy Fellow, Academy of Nutrition and Dietetics Diversity Leader, American Society of Nutrition Science Policy Fellow, and Board Chair of a community-owned grocery store in Boston. In 2018, she was honored as a 40 under 40 Leader in Minority Health by the National Minority Quality Forum. She also serves on the editorial board for the Journal of Immigrant and Minority Health, Journal of Racial Ethnic Health Disparities, Health Psychology, and Translational Behavioral Medicine. Dr. Brown has a PhD from Tufts University's Friedman School of Nutrition Science and Policy, received her Master of Science degree from Columbia University, and her Bachelor's degree from Spelman College.

De Ann Davis, PhD, DABT is the Senior Vice President, Science at Western Growers Association. Western Growers members grow, harvest and ship over 50% of the nation's fruits, vegetables, and tree nuts. Dr. Davis has more than 30 years of experience in the development and execution of technical global programs, including food safety, quality assurance and regulatory compliance. Prior to Western Growers, her previous roles include Vice President of Food Safety and Quality for both Church Brothers Farms and Earthbound Farm, as well as Chief Food Safety Office for Kraft Foods Group. Dr. Davis earned her Bachelor of Arts degree in Biology and Chemistry from Point Loma Nazarene University and her PhD in Biochemistry from Texas A&M University. She was a certified Diplomat of the American Board of Toxicology, from 1996-2021. Dr. Davis holds several committee appointments within the produce industry and recently completed her second term on the USDA National Advisory Committee on Microbiological Criteria for Food.

Christopher P. Derico holds a master's degree in education administration from West Virginia University. Through the West Virginia Department of Education, he holds various administrative certifications, including Superintendent of Schools. He has spent time as a teacher and assistant principal at two different high schools, and as a child nutrition director in two different districts. On July 1, 2021, Chris was elevated to his current position of Administrative Assistant overseeing all aspects of secondary education and child nutrition in Harrison County, W.Va. He has served two terms as the President of the WV School Nutrition Association. On the national level, he has served on the professional development and membership committees and spent two years as an at-large director on the SNA Board prior to his election to his current role as the President-Elect.

Caroline Smith DeWaal is the Deputy Chief of Party of EatSafe (Evidence and Action Towards Safe, Nutritious Food) at the Global Alliance for Improved Nutrition (GAIN). Prior to joining GAIN, She has previously worked as an International Food Safety Policy Manager for FDA's Center for Food Safety and Applied Nutrition. Caroline holds a bachelor's in Political Science from the University of Vermont and a J.D from Antioch School of Law.

SPEAKER BIOS

William (Bill) Dietz is the Director of the Sumner M. Redstone Global Center for Prevention and Wellness at the Milken Institute School of Public Health at The George Washington University. He is also the Sumner M. Redstone Center Chair. Dietz is a member of the National Academy of Medicine and serves as a consultant to the Roundtable on Obesity Solutions. He is the Director of the STOP Obesity Alliance at The George Washington University. He is Co-Chair of the Washington, DC Department of Health's Diabetes Committee, a Commissioner on the Washington, DC Office of the State Superintendent of Education's Healthy Youth & Schools Commission, and Chair of its Subcommittee on Physical Activity. Dietz is also Co-Chair of The Lancet Commission on Obesity. From 1997-2012, Dietz was the Director of the Division of Nutrition, Physical Activity, and Obesity in the Center for Chronic Disease Prevention and Health Promotion at the Centers for Disease Control (CDC). Prior to his appointment to the CDC, he was a Professor of Pediatrics at the Tuft's University School of Medicine, and Director of Clinical Nutrition at the Floating Hospital of New England Medical Center Hospitals. He received his BA from Wesleyan University in 1966 and his MD from the University of Pennsylvania in 1970. After the completion of his residency at Upstate Medical Center, he received a Ph.D. in Nutritional Biochemistry from Massachusetts Institute of Technology in 1981. He is the author of more than 200 publications in the scientific literature, and the editor of five books, including *Clinical Obesity in Adults and Children* (now in its 2nd edition), and *Nutrition: What Every Parent Needs to Know*.

Gregg Doud is NMPF's President and Chief Executive Officer. Before arriving at NMPF he served as the Chief Agricultural Negotiator in the Office of the United States Trade Representative from 2018 until 2021; before that, he served as the president of the Commodity Markets Council, representing commodities exchanges before Congress and federal agencies. He also has served as a staff member for the United States Senate Committee on Agriculture, Nutrition and Forestry, where he helped draft the 2012 Farm Bill, and as chief economist for the National Cattlemen's Beef Association. Most recently, he worked at Aimpoint Research as its Vice President of Global Situational Awareness and Chief Economist. A native of Mankato, Kansas, where he grew up raising cattle, Doud earned a Bachelor of Science degree in animal science and a Master of Science in agricultural economics from Kansas State University. He was awarded the Outstanding Young Alumnus of the Kansas State University Agriculture Alumni Association in 2012 and also received the Outstanding Alumnus award from the Department of Agricultural Economics at Kansas State in 2017. He currently lives with his family on their horse farm in Lothian, MD.

Leah Douglas is the agriculture and energy policy reporter at Reuters, covering food and farm issues in federal policy, regulation, litigation, competition, labor, and more. Previously, they were a staff writer and associate editor at the Food and Environment Reporting Network, an independent, nonprofit newsroom. Leah's reporting has been published in the Guardian, the Nation, the Washington Post, Mother Jones, NPR, the American Prospect, Time, and other outlets. Leah's reporting has been cited in dozens of print and television media outlets,

including the New York Times, Washington Post, AP, NBC Nightly News, and John Oliver's Last Week Tonight. Leah has received fellowships from U.C. Berkeley, Vermont Law and Graduate School, Institute for Journalism and Natural Resources, and the New Economies Reporting Project. Leah has won awards from the National Association of Agricultural Journalists for feature and investigative reporting, and was the 2020 recipient of the National Farmers Union Milt Hakel Award for excellence in agricultural reporting.

Dr. Thomas Eagen is Senior Health Policy Advisor in the Office of the Chair, Senator Bernie Sanders (D-VT) for the US Senate HELP Committee. Previously, Thomas was Health Policy Director at National Center for Health Research. In this role, Thomas focused on the impact of federal health policy to improve quality of care for all patient populations, and was responsible for tracking active legislation and engaging with Members of Congress and Congressional staff to serve as a resource and ensure policies are supported by research. Previously, Thomas served as a Legislative Assistant in the Office of Senator Maria Cantwell. Dr. Eagen completed his PhD in Rehabilitation Science and MPH in Health Systems and Policy at the University of Washington. Dr. Eagen has focused on the overall reach and effectiveness of evidence-based programs designed for community-dwelling older adults supported by federal funding. Specifically, he has explored the participation of individuals with disabilities in evidence-based falls prevention programs. In his post-graduate work, Dr. Eagen has continued to gain a better understanding of how individuals with disabilities participate in falls prevention programs. His research has sought to identify the individuals at the greatest risk for adverse events, which factors contribute to adverse events, and which programs successfully reduce this risk among individuals with disabilities.

Dr. Ahmed El-Sohemy is a Professor and Associate Chair and held a Canada Research Chair in Nutrigenomics at the University of Toronto. He is also the founder of Nutrigenomix Inc., serves as the company's Chief Science Officer. Dr. El-Sohemy obtained his PhD from the University of Toronto and completed a postdoctoral fellowship at Harvard. He has published in the top scientific and medical journals with over 200 peer-reviewed publications and has given more than 300 invited talks around the world. Dr. El-Sohemy is currently Speciality Chief Editor of Nutrigenomics for Frontiers in Nutrition and Editor-in-Chief of Genes and Nutrition while serving on the editorial board of ten other scientific and medical journals. He has been a member of international expert advisory panels and the scientific advisory boards of several organizations, and his research has garnered considerable media attention over the past 20 years. Dr. El-Sohemy is the recipient of several awards for research excellence by the Canadian Nutrition Society, the American College of Nutrition, and the American Nutrition Association.

Frances Fleming-Milici is Director of Marketing Initiatives for the Rudd Center for Food Policy & Health. She joined the Rudd Center's marketing team in February 2011. Her work focuses on analyzing race/ethnicity differences in rates of exposure to advertising of unhealthy foods and beverages, and assessing the impact of targeted marketing practices on youth attitudes and consumption. Dr. Fleming-Milici earned her PhD in Mass Communication at the University of Connecticut.

SPEAKER BIOS

Sherry Frey brings more than two decades of industry experience to her role as Vice President, Total Wellness at NielsenIQ. With a background in market research, innovation and consulting, she has elevated clients across the fresh, CPG and wellness industries, providing forward-thinking insights, combined with practical strategies. In addition to leading NielsenIQ's Total Wellness team and industry engagement, Sherry has been a featured speaker at many national and international industry events, and is often sought as a media and analyst resource on topics related to consumer health, wellness and environmental issues. Sherry's view of health and wellness spans beyond personal health and wellness, encompassing how we collectively think about the health of the planet.

Sarah Gallo is vice president, product policy, at the Consumer Brands Association. In her role, Sarah holistically oversees Consumer Brands' policy leadership on smart regulation issues from advocacy through education to marketplace solutions. Prior to joining Consumer Brands, she served as Vice President, Agriculture and Environment for the Biotechnology Innovation Organization. There, Gallo led the organization's strategy across agriculture, food systems, energy, and biobased manufacturing. Before that, Sarah held roles at CHS Inc., the National Corn Growers Association and as Agriculture Counsel with the U.S. House of Representatives Committee on Small Business. Gallo graduated from Boston University with a Bachelor of Arts in marine biology. She resides in Arlington, Virginia with her husband and two, young children.

Joe Glauber is a Senior Research Fellow in the Markets, Trade, and Institutions Unit. His areas of interest are price volatility, global grain reserves, crop insurance, and trade. Prior to joining IFPRI, Joe spent over 30 years at the U.S. Department of Agriculture, including as Chief Economist from 2008 to 2014. As Chief Economist, he was responsible for the Department's agricultural forecasts and projections; oversaw climate, energy, and regulatory issues; and served as Chairman of the Board of Directors of the Federal Crop Insurance Corporation. From 2007 to 2009, Joe was the Special Doha Agricultural Envoy at the office of the U.S. Trade Representative where he served as Chief Agricultural Negotiator in the Doha talks. He served as economic adviser at the "Blair House agreements," leading to the completion of the Uruguay Round negotiations. Joe is the author of numerous studies on crop insurance, disaster policy, and US farm policy. In 2012, he was elected Fellow of the Agricultural and Applied Economics Association. He received his PhD in Agricultural Economics from the University of Wisconsin and holds a bachelor's degree in Anthropology from the University of Chicago.

Stephanie Goodwin joined the Public and Government Affairs team at Danone North America in 2019. She has been with Danone for 8 years, first on the science team for the division of medical foods, and then on the regulatory affairs team. Prior to joining Danone, Stephanie worked within the Office of the Assistant Secretary for Health, U.S. Department of Health and Human Services (HHS) on the 2015 Dietary Guidelines. Stephanie is a Registered Dietitian and earned a Master of Public Health in Health Education, as well as her Doctorate in Human Nutrition and Public Policy from Virginia Tech. She completed her Post-Doctoral Fellowship in

metabolic science at the National Institutes of Health with the National Institute of Diabetes & Digestive & Kidney Disease. Stephanie is also a graduate of the University of New Hampshire, where she received a Bachelor of Science in Nutritional Sciences. Stephanie is an outdoor enthusiast and spends most of her free time with her family, including her husband and two little boys playing outside.

Dr. Jim Gorny currently serves as the Senior Science Advisor for Produce Safety where he is the chief advisor to CFSAN interim director Dr. Don Prater on policies and programs that affect the safety of produce. At FDA CFSAN, Dr. Gorny works alongside a dedicated team of produce safety experts on the development and implementation of new science and risk-based requirements created to help prevent illnesses caused by fresh produce. He also has responsibilities related to agency responses to produce associated foodborne illness outbreaks, recalls, investigations as well as education outreach and research. Prior to joining FDA, Jim Gorny was Vice President of Food Safety & Technology at the Produce Marketing Association (PMA) where he worked directly with the entire produce industry supply chain to advance produce safety procedures, policies, practices and technology. Dr. Gorny holds a Ph.D. in Plant Biology from the University of California Davis and a Bachelor of Science and Master of Science degrees in food science from Louisiana State University.

Randy Green, the owner of Watson Green LLC, has seen food and agriculture policy from all sides, having served in both the executive and legislative branches of government and in the private sector. Over his career he has been closely involved in the development of several multi-year farm bills, as well as major legislation and regulations affecting derivatives, food safety, animal health and human nutrition. Randy came to Washington in the 1980s to work for former Representative Charles Stenholm (D-Tex.) and later served the late Senator Richard Lugar (R-Ind.) on the staff of the Senate Agriculture Committee. With the exception of a stint as a deputy under secretary of agriculture, Randy served on the agriculture committee staff continuously from 1989 to 1999. The last two years he was chief of staff. In 1999 Randy entered the private sector to represent agricultural and food industry clients at the firm now known as Watkinson Miller. Earlier in his career, he managed government relations for the American Soybean Association and was director of the Wheat Export Trade Education Center. In 2013, Randy and Lisa Watson formed Watson Green LLC, a firm centered on food and agriculture policy and public affairs. With Lisa's retirement at the end of 2022, Randy continues to operate the company.

Sally Greenberg joined the National Consumers League as Executive Director on October 1, 2007. The League's focus is on five key priority areas: fraud, child labor, LifeSmarts, health care, especially the safe use of medications and medication adherence, and food safety and nutrition. Sally has testified numerous times before Congress on consumer protection issues, including product safety, fraud, excessive fees on car rentals, consumer rip-offs in calling cards and in support of protections for farmworker children. Sally is our primary spokesperson on a variety of issues. Sally came to NCL from Consumers Union, where she worked from 1997-2007 on product liability and food safety issues, along with auto and product safety. Sally was president of the Women's Bar Association of Massachusetts and the Women's Bar Foundation and served on several gubernatorial commissions in Massachusetts. Sally also served for over a decade on the board of directors of Trillium Asset Management.

SPEAKER BIOS

Thomas Gremillion is the Director of Food Policy at the Consumer Federation of America. He oversees the research, analysis, advocacy and media outreach for the group's food policy activities, and monitors food safety activities at USDA, FDA and in Congress, where he advocates for strong food safety protections for consumers. He also coordinates the Safe Food Coalition, a group of consumer, trade union, and foodborne illness victim organizations dedicated to reducing foodborne illness by improving government food inspection programs. Prior to joining CFA in 2015, Gremillion practiced environmental law at Georgetown University Law Center's Institute for Public Representation, where he represented community groups and advocacy organizations in litigation against polluters and government regulators. He also served as an associate attorney at the Southern Environmental Law Center in Chapel Hill, NC, where he specialized in transportation and land use issues. A graduate of Harvard Law School, Gremillion is a member of the D.C. and North Carolina bars. He graduated magna cum laude from the University of South Carolina with a B.S. in mathematics, and served as a Rotary Ambassadorial Scholar in Quito, Ecuador, where he received an M.A. in International Relations from La Universidad Andina Simón Bolívar.

Alexis Guild is the Vice President of Strategy and Programs at Farmworker Justice (FJ), a national farmworker advocacy organization based in Washington, DC. She has been at FJ since 2011. In her role, she coordinates FJ's policy advocacy and programmatic work and is a member of the leadership team. She works with advocacy organizations, community health centers, farmworker community-based organizations, legal services organizations, and labor unions to improve the living and working conditions of farmworkers and their families across the U.S. Alexis co-authored "Out of Sight, Out of Mind: The Implementation and Impact of the Affordable Care Act in U.S. Farmworker Communities" published in the Journal of Health Care for the Poor and Underserved (2016); and "The Neighbors Who Feed Us: Farmworkers and Government Policy – Challenges and Solutions" published in the Harvard Law and Policy Review (2018). Prior to graduate school, she served as a Health Education Volunteer with the U.S. Peace Corps in Guatemala. She has a B.A. from Wellesley College and a Master's degree in Public Policy from the University of Michigan.

Dr. Shauna Henley is actively engaged in food safety education along the food supply chain. At the farm level, Dr. Henley is a FSMA Produce Safety Rule instructor, assists with On-Farm Readiness Reviews and co-teaches Good Agricultural Practices. At the production level, Dr. Henley is a Lead Instructor for FSMA's Preventive Controls for Human Food, and works with an interdisciplinary team to educate food entrepreneurs on Cottage Law, and other regulations related to a food business. In addition to these activities, Shauna is a ServSafe instructor and exam proctor. Her expertise focuses on consumer food-safety education. Shauna's current research interest is improving safe and consistent food handling behaviors from farmers to consumers, by focusing on cues that drive safe food handling behaviors.

Dr. Kristi Muldoon Jacobs is the current Acting Director for the FDA's Office of Food Additive Safety (OFAS). OFAS is responsible for ensuring the safety of direct and indirect food additives, color additives and GRAS substances as well as supporting safety and innovation in food from new plant varieties and made with cultured animal cells. Dr. Muldoon Jacobs earned a Ph.D. from UMDNJ/Rutgers University program in biomedical sciences and continued research at NIH/National Cancer Institute on the mechanism of tumor suppression and carcinogenesis. In her previous roles at FDA and USP she served as a toxicologist with expertise in the safety assessment of FDA regulated products including food ingredients, indirect and direct additives, dietary supplements, and drug impurities. She has extensive knowledge of regulatory systems globally to ensure quality and safety of products and has served as an expert to JECFA, OECD and ICH committees. She is an internationally recognized expert in the application of new and alternative safety and risk assessment methods such as TTC, QSAR and read-across methodology. She has served as an expert on 15 international working groups and has published over 30 peer reviewed publications in areas related to her expertise.

Dr. Lee-Ann Jaykus is a former William Neal Reynolds Professor in the Department of Food, Bioprocessing, and Nutrition Sciences at North Carolina State University, where she was employed for almost 30 years. Her formal training is in Food Safety, Food Microbiology, and Public Health, with research efforts focused on: (1) food virology; (2) development of molecular methods for foodborne pathogen detection; (3) application of quantitative risk assessment in food safety; and (4) understanding the ecology of pathogens in foods. She is probably best known for her efforts in food virology, culminating in her service as scientific director for the USDA-NIFA Food Virology Collaborative (NoroCORE) from 2011-2018. Dr. Jaykus has authored over 200 scientific publications, instructed more than 600 university students, and trained over 60 young professionals who are employed in academic, industry, and government sectors worldwide. Her national and international external activities are vast, spanning service to FAO-WHO, the National Advisory Committee on Microbiological Criteria for Foods, various National Academies of Sciences panels, and service as president of the International Association for Food Protection from 2010-2011. Dr. Jaykus authored one of the first papers on the impact of global climate change on food safety, and has recently become active in international initiatives centered around the intersection of sustainability, climate change, and the food system, with a focus on nutrition and food safety.

Jim Jones joined the FDA in September 2023 as the agency's first Deputy Commissioner for Human Foods. Prior to the FDA, he spent most of his career as a federal regulator of pesticides, toxic substances, chemical safety, and pollution prevention at the EPA. From 2017 to 2020, Jones worked for the Household and Commercial Products Association, then ran his own company advising clients on issues related to chemical safety and sustainability. He holds a bachelor's degree in economics from the University of Maryland, and a master's degree in economics from the University of California at Santa Barbara.

Barbara Kowalczyk, PhD, MA, is an Associate Professor in the Department of Exercise and Nutrition Sciences and Director of the Food Policy Institute. She also has an appointment in the Department of Environmental and Occupational Health and is a fellow with the Sumner M. Redstone

SPEAKER BIOS

Global Center for Prevention and Wellness. Dr. Kowalczyk's research spans a range of topics related to food safety and infectious foodborne disease, including their intersection with nutrition security. She is particularly interested in advancing systems-based approaches to food safety that have a strong focus on disease prevention, consider the connections between human, animal and environmental health, and promote evidence-based decisions from farm to fork to physician. Dr. Kowalczyk has extensively used epidemiologic methods, data analytics and risk analysis to assess food safety risks and potential intervention strategies in both the United States and the Global South. She has led multiple innovative, collaborative and large-scale research projects. Prior to joining GW in 2023, Dr. Kowalczyk was faculty at The Ohio State University with appointments in the Department of Food Science and Technology and the Department of Environmental Health Sciences, and directed the Center for Foodborne Illness Research and Prevention (CFI), a non-profit organization she co-founded in 2006. Prior to joining OSU, she was a senior food safety and public health scientist at RTI International and a research assistant professor in the Department of Food, Bioprocessing and Nutrition Science at North Carolina State University. In addition to her extensive experience in food safety, Dr. Kowalczyk has more than 10 years of experience as a biostatistician conducting clinical research and providing support to data safety monitoring boards in the pharmaceutical industry. Dr. Kowalczyk received her BA in mathematics from the University of Dayton, her MA in Applied Statistics from the University of Pittsburgh and her PhD in Environmental Health from the University of Cincinnati.

Dr. Scott Kahan is the Director of the National Center for Weight and Wellness. He is a physician trained in both clinical medicine and public health, and an internationally-recognized leader in the fields of Preventive Medicine and Obesity Medicine. Dr. Kahan received his undergraduate degree in bioengineering from Columbia University, his medical degree from the Medical College of Pennsylvania, and his Master's of Public Health degree from Johns Hopkins School of Public Health. He trained in Internal Medicine and completed a residency in Preventive Medicine at Johns Hopkins University, where he served as Chief Resident. He is Board Certified in Preventive Medicine, Obesity Medicine, and Clinical Nutrition. In addition to his clinical practice, Dr. Kahan also works as a public health physician specializing in nutrition and obesity policy. He has served as the Director of the Strategies to Overcome and Prevent (S.T.O.P.) Obesity Alliance. He has co-authored clinical guidelines for obesity and diabetes treatment. He teaches several courses on obesity, nutrition, public health, and health behavior change. He created and teaches the first course devoted to obesity and nutrition at the George Washington University School of Medicine, as well as the first undergraduate course devoted to obesity at Johns Hopkins University. He has served as the Co-Director of the George Washington University Weight Management Program and the Associate Director of the Johns Hopkins Weight Management Center, as well as core faculty of the Johns Hopkins Preventive Medicine Residency Program.

Abby J. Leibman has been President & CEO at MAZON: A Jewish Response to Hunger since 2011. Prior to her current tenure, Ms. Leibman had a consulting practice to assist social justice organizations, businesses, and public institutions meet the challenges of growth and change, including leadership development, managing diversity, and implementing strategies to respond to discrimination. For over 20 years, Ms. Leibman has worked with and led some of California's most prominent nonprofit organizations, including the California Women's Law Center, which she co-founded and directed for 12 years. Prior to founding the California Women's Law Center, Ms. Leibman was the Directing Attorney/Community Programs for Public Counsel, where she developed and then directed its Child Care Law Project and managed its project providing pro bono transactional assistance to nonprofit organizations. Ms. Leibman served as adjunct faculty at UCLA and the Graduate School of Management at American Jewish University. Ms. Leibman has received a number of prestigious honors, including the Hastings College of Law Alumnae of the Year, California Women Lawyer's Faye Stender Award, Women Lawyers Association of Los Angeles' Ernestine Stalhut Award, UCSD's Top 100 Influential Alumni Award, USC Law Center's Public Interest Advocate Award, and the So. California Employer Round Table's Carol F. Schiller Award. She has a J.D. from Hastings College of Law and graduated magna cum laude from UC San Diego with a B.A. in Political Science.

Cindy Long was appointed Administrator for the Food and Nutrition Service on September 13, 2021. Administrator Long most recently served as Food and Nutrition Service (FNS) Acting Administrator, and has had extensive experience with FNS, including serving as Deputy Administrator for Child Nutrition Programs. In this role, she led FNS' implementation of the Healthy, Hunger Free Kids Act, the most significant restructuring of these programs in decades and a legislative centerpiece of the Obama-Biden Administration's nutrition initiatives.

Peter Lurie (he/him/his) is the President and Executive Director of CSPI. He has overall responsibility for CSPI's operations in both program (national, state, and local policy and advocacy; legislative and regulatory affairs; agricultural biotechnology; and Litigation) and business (marketing; development; human resources; finance; customer service; and information systems). He also oversees CSPI's science and communications activities and is the Executive Editor of Nutrition Action. He works closely with CSPI's Board of Directors and represents CSPI before the public, funders, and the press. Previously, Lurie was the Associate Commissioner for Public Health Strategy and Analysis at the Food and Drug Administration, where he worked on antimicrobial resistance, transparency, caffeinated beverages, arsenic in rice, fish consumption by pregnant and nursing women, expanded access to investigational drugs, and prescription drug abuse. Prior to that, he was Deputy Director of Public Citizen's Health Research Group, where he addressed drug and device issues, coauthored the organization's Worst Pills, Best Pills consumer guide to medications, and led efforts to reduce worker exposure to hexavalent chromium and beryllium. Earlier, as a faculty member at the University of California, San Francisco and the University of Michigan, he studied needle exchange programs, ethical aspects of mother-to-infant HIV transmission studies, and other HIV policy issues domestically and abroad.

SPEAKER BIOS

Christian Lovell draws on his deep experience in production agriculture and food policy as Farm Action Fund's Senior Director of Programs. In this role, he provides leadership and direction for the organization's growing program portfolio to advance a more just food system. Previously, Christian spent nearly a decade working on federal agricultural policy in Washington, DC, and served as Legislative Director to U.S. Representative Rosa DeLauro during her time as Chair of the House Committee on Appropriations. He also held other roles at the National Governors Association, The World Bank, and Informa Economics Group. Christian is a native of West Central Illinois where he now resides and manages his family's Registered Hereford cattle herd. He passionately advocates for regenerative grazing and is actively involved in the Illinois Grazing Lands Coalition.

Rachel Lyons has been with UFCW since 2017 and leads the union's federal and state legislative strategy on issues ranging from agriculture, trade and immigration to labor standards, cannabis and pensions. Prior to joining UFCW, Rachel was responsible for coordinating federal education and advocacy on workplace policies at the National Partnership for Women and Families. Rachel has worked for numerous political and advocacy organizations including Planned Parenthood, NARAL Pro-Choice America, Business and Professional Women's Foundation, American Arts Alliance and the National Education Association. She has worked on numerous political campaigns and earned a Bachelor of Arts in political science from the University of Colorado at Boulder and a Master of Arts in philosophy and social policy from George Washington University. She lives in Washington DC with two cats and her science reporter partner.

Calvin Manduna is a senior trade policy analyst with the Institute for Agriculture and Trade Policy based in Washington, D.C. He has an interest in promoting environmentally sustainable agriculture approaches, strengthening rural livelihoods and in shaping U.S. agriculture policy towards a future of sustainable agriculture that supports farmers livelihoods and delivers healthy nutritious food for consumers. He has worked on trade policy issues and regional integration for the past 15 years. He has covered trade negotiations with the European Union, the WTO Doha Round, and more recently under the African Continental Free Trade Area. Calvin has worked on trade policy issues based in Brussels and Geneva, as well as in developing country regions across Africa and the Caribbean. Before transitioning to non-profit, Calvin worked for the African Development Bank and the Caribbean Development Bank.

Donna Martin is the retired director of the Burke County (GA) school nutrition program. Martin served as the Academy's President in 2017-2018. Martin is a graduate of the University of Georgia and earned a master's degree from the University of Alabama – Birmingham and an education specialist degree from Augusta University. In 2016, Donna's work in the Burke County Public Schools nutrition program gained national attention when Michelle Obama and Al Roker visited Burke County to help plant a school garden. Donna was then invited to speak at the White House for Michelle Obama's capstone event. Donna was also awarded the 2016 Golden Radish Award for the state of Georgia because of her efforts

in the Farm to School Movement. Donna has been involved in numerous public policy initiatives including testifying before Congress about the new School Nutrition Standards and to the House of Representatives Staff on the Farm to School Bill. Donna got to speak at the White House Conference on Hunger, Nutrition and Health on the importance of School Meals. Donna is on the GenYouth Board of Directors, The Chef Ann Foundation Advisory Board, is a National Dairy Ambassador, a No Kid Hungry Consultant and a trainer for the Institute of Child Nutrition.

Dr. Richard Mattes is a Distinguished Professor of Nutrition Science at Purdue University, Adjunct Associate Professor of Medicine at the Indiana University School of Medicine and Affiliated Scientist at the Monell Chemical Senses Center. His research focuses on the areas of taste function, hunger and satiety, food preferences, regulation of food intake in humans and human cephalic phase responses. At Purdue, Dr. Mattes is the Head of the Ingestive Behavior Research Center. He is a former president of the American Society for Nutrition and was a member of the 2020 Dietary Guidelines Advisory Committee. He has authored over 300 publications. Dr. Mattes earned an undergraduate degree in biology and a Master's degree in Public Health from the University of Michigan as well as a doctorate degree in Human Nutrition from Cornell University. He conducted post-doctoral studies at the Memorial Sloan-Kettering Cancer Center and the Monell Chemical Senses Center.

Ruth McDonald

Dr. Jennifer Cleveland McEntire is the founder of Food Safety Strategy, LLC. With 20 years of food and beverage association experience, she combines her technical background and regulatory insights to help the food industry assess and manage food safety risks in order to protect public health. She held previous food safety leadership positions with the International Fresh Produce Association, Grocery Manufacturers Association, The Acheson Group and the Institute of Food Technologists. McEntire earned a PhD from Rutgers University as a USDA National Needs Fellow in Food Safety and received a Bachelor of Science with Distinction, magna cum laude, in food science from the University of Delaware. She's a member of the technical committee for the Center for Produce Safety, and was the 2020 recipient of the NSF International Food Safety Leadership Award and 2023 recipient of the Harold Barnum Industry Award from IAFP. She has published numerous books, book chapters, and peer reviewed articles.

John Myron currently serves as a Legislative Assistant for Ranking Member of the House Appropriations Committee, Congresswoman Rosa L. DeLauro (CT-03). In his role, John is the lead policy staffer on the FDA and food safety, labor, education, agriculture, nutrition and hunger, Social Security/retirement, LGBTQI+ issues, and the Congresswoman's Working Families Agenda which includes the Paycheck Fairness Act to codify equal pay for equal work, the FAMILY Act to ensure paid family and medical leave, the Healthy Families Act to guarantee paid sick leave, and the Schedules that Work Act to help ensure employees have more certainty about their work schedules and incomes. Prior to joining Congresswoman DeLauro's office, John worked for Congressman David Cicilline from Rhode Island. John is a native of Massachusetts and a graduate of Boston College.

DeAnna Nara is the policy lead for CSPI's warning labels work, specifically focusing on initiatives to improve food environments by reducing sodium and added sugars consumption. As an Edward Alexander Bouchet Doctoral Fellow, DeAnna earned her PhD in Nutritional Sciences from Howard University. Her doctoral dissertation work focused on nutritional management of chronic disease among low income, minority residents in DC. DeAnna earned a MSc in Herbal Medicine from the Maryland University of Integrative Health and graduated Phi Beta Kappa with a BS in Psychology from Howard University, completing her Post Baccalaureate Training at the National Institute of Mental Health within the Laboratory of Cellular & Molecular Regulation. DeAnna is the Chair of the DC Board of Nutrition & Dietetics and is also a Licensed Dietitian-Nutritionist and Certified Nutrition Specialist. DeAnna most recently served as policy advisor and public health Nutritionist for Terrific, Inc., a nonprofit housing and human services organization, where she advised DC policy for managing chronic disease for low income, at-risk, senior citizens.

Aaliyah Nedd serves as Director of Government Relations for the National Cooperative Business Association (NCBA CLUSA). In this role, she leads NCBA's federal, state, and local outreach and advocacy work to develop, advance and promote cooperative enterprise. Prior to joining NCBA CLUSA, Aaliyah worked on a variety of policy issues at the National Association of Counties (NACo). Most recently she served as the Associate Legislative Director for Agriculture/Rural Affairs and Immigration. Aaliyah holds degrees in International Studies and Russian and is a graduate of the University of Florida.

Tom Neltner is a chemical engineer and attorney dedicated to chemical safety issues using his significant experience in government, industry, academia, and non-profit advocacy to protect kids from harmful exposure to lead. He is founder and national director of Unleaded Kids, a new non-profit focused on reducing children's exposure from all sources closer to zero. Prior to founding Unleaded Kids, he was the Environmental Defense Fund's Senior Director for Safer Chemicals. He and his colleagues led EDF's efforts to remove or minimize hazardous chemicals from products and the marketplace through cross-cutting policy initiatives. His primary focus is on food additive safety and reducing exposure to lead in our homes and communities.

Colin O'Neil is Senior Director of Public Policy & Social Impact at Bowery, the largest vertical farming company in the United States, serving more than 2,600 grocery stores and major e-commerce platforms. In his role, Colin oversees Bowery's public policy and stakeholder engagement strategies and manages Bowery's cross-functional ESG team. Prior to joining Bowery, O'Neil spent 14 years working for environmental NGOs where he worked with partners to create successful legislation related to agricultural conservation, climate change and agriculture, the regulation of toxic "forever chemicals" known as PFAS, food labeling and federal appropriations.

Kristina Peterson covers food and agriculture policy from The Wall Street Journal's Washington bureau. She previously covered Congress and the Federal Reserve. She has been at the Journal since 2009.

Dr. Lance Price is a professor at the George Washington University's Milken Institute School of Public Health in Washington, DC. He is also the founding director of the Antibiotic Resistance Action Center. Dr. Price works at the interface between science and policy to address the growing crisis of antibiotic resistance. His research, retracing the evolution and epidemiology of antibiotic-resistant bacteria, has been published in top peer-reviewed journals and covered in media outlets around the world. In the laboratory, Dr. Price uses cutting-edge molecular approaches to trace the origins of antibiotic-resistant bacteria and develop strategies to block their transmission. In the policy arena, Dr. Price works with non-governmental organizations and policymakers to develop science-based policies to curb unnecessary antibiotic use in people and in food-animal production. Dr. Price received his Bachelor's and Master's degrees in Microbiology and Biology from Northern Arizona University and his Doctorate in Environmental Health Sciences from the Johns Hopkins University, where he was a Center for a Livable Future Doctoral Fellow.

Barry M. Popkin, PhD, developed the concept of the Nutrition Transition, the study of the dynamic shifts in our environment and the way they affect dietary intake and physical activity patterns and trends and obesity and other nutrition-related noncommunicable diseases. His research program focuses globally (both the US and low and middle income countries on understanding the shifts in stages of the transition and programs and policies to improve the population health linked with this transition. He has played a central role in placing the concerns of global obesity, its determinants, and consequences on the global stage and is now actively involved in work on the program and policy design and evaluation side at the US and global levels., including collaborative evaluation research in Mexico (with the National Institute of Public Health), with the Institute of Nutrition and Food Technology, University of Chile, and two SPH's at WITS and the University of Western Cape in South Africa and many others. He has mentored over 66 PhD's and large numbers of junior faculty and postdocs. He has received over a dozen major awards for his global contributions, including: 2016 World Obesity Society: Population Science & Public Health Award for top global researcher in public health with also significant service contributions.; 2015; UK Rank Science Prize; and The Obesity Society Mickey Stunkard Lifetime Achievement Award. He has published over 650 refereed journal articles and PLOS rated him as one of the top cited scholars in the world among 7 million scholars in 2017 (rated number 203 out of 6.8 million or in the top 0.003% scientists in the world; H-191 citations 221,197).

Krystal Register, MS, RDN, LDN, FAND is the Vice President of Health and Well-being at FMI - The Food Industry Association. She is responsible for overall leadership, strategic planning and execution of FMI's nutrition, health and well-being activities and initiatives. She serves as the lead coordinator and subject matter expert for nutrition policy, programs, operations, and communication issues across the food industry for FMI members, industry partners and community collaborators. Krystal was a food retail dietitian with Wegmans Food Markets, Inc. for twelve years prior to joining FMI and made significant contributions to company-wide wellness programs, consumer health messaging, employee wellness, community events, and local media response in the National Capital Region. Krystal's

SPEAKER BIOS

background includes environmental and nutrition science studies with degrees from the College of William and Mary and James Madison University, with both clinical and personal coaching professional experience. Krystal currently serves as Chair of the Food & Culinary Professionals (FCP) Dietetic Practice Group with the Academy of Nutrition and Dietetics and is an Academy Fellow. She has served for many years with FCP as Supermarket/Retail Subgroup Chair, Treasurer, Membership Chair, and Chair-Elect. She also served as mentor to the Academy Foundation Nutrition in Food Retail Program Development Fellow, and contributes to many advisory committees, including the Portion Balance Coalition, USDA's MyPlate National Strategic Partnership, and the National Fruit & Vegetable Consumption Coalition.

Teófilo Reyes oversees ROC United's efforts to build worker power and advance the Restaurant Workers Bill of Rights. Prior to ROC, Teófilo served as co-director and staff writer at Labor Notes, director of tie-global in North America, helped build the Coalition for Justice in the Maquiladoras, helped found the National Coalition for Dignity and Amnesty, and was a community organizer with the United Farm Workers in Chicago. Dr. Reyes' first job was at McDonald's. Teófilo holds a BA in Economics and Russian from the University of Michigan, and a PhD in Comparative Human Development from the University of Chicago, where he received a National Science Foundation Graduate Fellowship. He was a visiting scholar and lecturer at the Goldman School of Public Policy, University of California, Berkeley. Teófilo was born in Carson City, Michigan, and raised in Mexico City.

Michelle Rosenthal is a Senior Attorney in the Federal Trade Commission's Division of Advertising Practices, where she focuses on deceptive and unfair business practices in the advertising and technology space, particularly those affecting kids and teens. During her current role and in a prior stint at the FTC, Michelle has focused specifically on influencer marketing to kids and teens; social media, gaming, and AI-related harms; targeted advertising; COPPA; and privacy and data security policy. In addition to the FTC, Michelle worked as in-house counsel at T-Mobile, advising and advocating for the company on privacy, cybersecurity, and ad-tech issues.

Ricardo Salvador is an agronomist who has worked over 40 years in academia, philanthropy, and advocacy to shape a more sustainable and socially equitable food system. Born and raised in southern Mexico, he completed his higher education at New Mexico State University and holds M.S. and Ph.D. degrees in crop production and physiology from Iowa State University. He taught and researched at Iowa State University for 26 years, prior to a stint as Program Director for Food, Health and Wellbeing at the W. K. Kellogg Foundation. As director and senior scientist of the Food and Environment Program at the Union of Concerned Scientists since 2012, Ricardo leads a team of interdisciplinary scientists and policy analysts to make the case that science-based, sustainable practices can be highly productive while also protecting the environment, producing healthy food, and creating economic opportunity for all. He has served on the Board on Agriculture and Natural Resources of the National Academies of Sciences, Engineering, and Medicine, the International Panel of Experts on Sustainable Food, and has advised a range of organizations, including: the National Sustainable Agriculture

Coalition, FoodCorps, the Center for Good Food Purchasing, Food System 6, The Land Institute, National Farm to School Network, HEAL Food Alliance, and the Fair Food Program of the Coalition of Immokalee Workers.

Dr. Tara Scully has a Master of Forensic Science and a PhD in Developmental Biology. Her current research is on the impact of climate change on independent restaurants in coordination with the James Beard Foundation. The report was released on February 20, 2024. She previously was working on water quality issues such as microplastics contamination, CSOs, and runoff. This connects to her research on the effects of agricultural runoff on the developmental changes, succession of the microbiome, and regulation of the transcriptome in the eastern oyster, *Crassostrea virginica*. At GW, Dr. Scully regularly teaches introductory biology laboratory courses, service courses, undergraduate research courses, and sustainability courses along with the course, World on a Plate with Chef José Andrés. She is working with Chef Andrés on his latest venture the Global Food Institute at GW where she is the Director of Curriculum Development. Lastly, Dr. Scully has been coordinating a team of faculty, staff, and students from all DC area universities to collaborate on sustainability efforts. This resulted in the formation of DC CHEERS (DC Coalition of Higher Education for the Environment, Resilience, and Sustainability).

Sakeenah Shabazz is a Senior Policy Advisor at the USDA Food and Nutrition Service. She most recently worked at the Berkeley Food Institute, where she managed their local, state, and federal policy engagement as Policy Director. Prior to her time at UC Berkeley, Sakeenah worked at the Congressional Hunger Center, first as a 23rd class Emerson National Hunger Fellow and later as a Senior Policy Associate for their domestic program. She was also a Program Associate at D.C. Hunger Solutions, a project of the Food Research and Action Center, focused on SNAP outreach and enrollment in the District of Columbia. Sakeenah is an AmeriCorps Alum of City Year – Seattle/King County and holds a Master of Public Policy (MPP) from the Goldman School of Public Policy at UC Berkeley and a BA in Philosophy from Georgetown University. She is originally from San Diego, CA and resides in Washington, D.C.

Pamela Starke-Reed, Ph.D., is deputy administrator for Nutrition, Food Safety and Product Quality/New Uses at the Agricultural Research Service (ARS), USDA. Dr. Starke-Reed also serves as the Ethics Officer and Scientific Integrity Officer for ARS. Dr. Starke-Reed is the Co-executive Secretary for the Interagency Committee for Human Nutrition Research (ICHNR) under the Chairs of the REE Undersecretary USDA and the HHS Assistant Secretary of Health. Prior to ARS, she served at the National Institutes of Health (NIH) as deputy director of the Division of Nutrition Research Coordination and coordinated the ongoing nutritional sciences, obesity, and Physical activity research at NIH. Her previous NIH positions include 10 years with the NIH National Institute on Aging as director of the Office of Nutrition and program director for the Nutrition and Metabolism and Protein Structure and Function research Programs. Prior positions include biologist with the Food and Drug Administration's Center for Food Safety and Applied Nutrition and assistant professor with the Department of Medicine of George Washington University (GWU) in Washington DC. Since 1991, Dr. Starke-Reed has served as adjunct professor with the GWU Medical Center in Washington D.C. She earned her B.S. in biology at St Lawrence University, and her Ph.D. in pathology at Hahnemann University.

Tambra Raye Stevenson is the author of a new book, "A Food Citizens Guide to Advance the Food Bill of Rights" to empower everyday people to take action to build a better food system for all. As the driving force behind WANDA (Women Advancing Nutrition Dietetics and Agriculture) and NativSol Kitchen, Tambra has garnered international acclaim for her groundbreaking work, speaking on TEDx stage, World Food Prize, Milken Global Summit, and US Library of Congress, and appointed by D.C. Mayor Bowser and USDA Secretary Vilsack. Her impactful presence extends beyond the realm of culinary arts, where she serves as a board member for the NAACP DC Branch, National Food Museum and Les Dames d'Escoffier DC. Tambra's dedication to public service began at HHS, Commerce, the Mayor's Office and as an Extension Agent before charting her own impactful path as evidenced by her recognition as the "2021 Science Defender," "Changemaker" by Cleaning Eating Magazine and Washington City Paper, "2014 Nutrition Hero" by Food & Nutrition Magazine and her distinction as a National Geographic Traveler of the Year. Her passion for ancestral food traditions led her on a transformative journey to reconnect with her Fulani roots in Niger and Nigeria, inspiring her to champion the health benefits of African heritage food ways on a global scale. She is a nutrition and public health graduate of Tufts, Oklahoma State University and American University where she is finishing her PhD in media, technology and democracy.

Milton Stokes, PhD, MPH, RD, FAND, has been at the intersection of food, agriculture, and nutrition for the last 10 years working on some of the most urgent issues facing people and planet—issues like food and nutrition security as well as sustainability. Thrilled to join the IFIC team, Milton supports IFIC's mission of effectively communicating science-based information on food safety, nutrition, and sustainable food systems. Milton has a master's degree in Public Health from Hunter College – City University of New York, and his clinical training was conducted at Yale-New Haven Hospital affiliated with Yale University School of Medicine. His doctoral degree, from the University of Connecticut, is in Communication and Marketing with a specialization in Health Communication.

Michael Taylor is board member emeritus of STOP Foodborne Illness, which supports and represents victims of foodborne illness and their families. He served from 2010 to 2016 as FDA's Deputy Commissioner for Foods and Veterinary Medicine, where he led implementation of the Food Safety Modernization Act of 2011. He served previously at FDA as a staff attorney (1976-80) and as Deputy Commissioner for Policy (1991-94) and at USDA as Administrator of the Food Safety and Inspection Service and Acting Under Secretary for Food Safety (1994-96).

Diana M. Thomas received her Ph.D. from the Georgia Institute of Technology in 1996. She then completed a National Research Council funded post-doctoral fellowship at the United States Military Academy and the Army Research Laboratory. In 2000, she joined the faculty of the Montclair State University where she was a professor of mathematics for 17 years. She also served as the director of the Montclair State University Center for Quantitative Obesity Research. Dr. Thomas is

currently a professor of discipline at the United States Military Academy at West Point. She holds joint research appointments at the Columbia University New York Obesity Research Center and the Pennington Biomedical Research Center and serves on the editorial board for the European Journal of Clinical Nutrition, PLoS One, and Nutrition and Diabetes. She has published over 130 peer-reviewed articles in exercise, fitness, nutrition, and body weight regulation relying on diverse mathematical methods ranging from differential equations to machine learning. Some of the questions she is investigating are "Why do individuals not lose weight during exercise?", "How can we objectively monitor diet in humans?", and "Does body shape and posture predict injury?" Her work has been covered by the New York Times, Wall Street Journal, Fitness Magazine, Good Housekeeping, CBS News, and ABC News.

Jonathan Voss joined Lake Research Partners in 2011. He has become an expert in helping clients develop strategy and effectively communicate to move audiences in support of key issues including protecting the environment for future generations, ensuring every child has a quality public education no matter the zip code they live in, and restoring the balance in our economy so that working people can sustain a family no matter what they look like or where they come from. Jonathan's clients include Ascend at the Aspen Institute, AFT, Afterschool Alliance, America's Voice, Center for American Progress, Center for Community Change, Choose Clean Water Coalition, Community Service Society of New York, Demos, ecoAmerica, Food Policy Action, Leadership Conference on Civil and Human Rights, NCPSSM, The Nature Conservancy, NEA, NextGen Climate Action, New America Foundation, The Opportunity Agenda, Potomac Conservancy, SEIU, Sierra Club, UnidosUS, and The Wilderness Society. Originally from Orange County, New York, Jonathan started working on political campaigns after college in New York City and around the country. He has a master's degree in public administration from NYU's Robert F. Wagner School of Public Service and has a bachelor's degree in politics from NYU. He lives in Washington, DC with his wife and daughter.

Roberta Wagner is the Senior Vice President, Regulatory and Scientific Affairs for the International Dairy Foods Association. Prior to IDFA, Roberta served as vice president of regulatory and technical affairs for the Consumer Brands Association, formerly the Grocery Manufacturers Association since 2019. Wagner retired after 33 years of public service, most recently as the assistant administrator of the Office of Policy and Program Development at the U.S. Department of Agriculture's (USDA) Food Safety and Inspection Service (FSIS). Previously, Wagner served as the deputy assistant administrator for the Office of Field Operations at FSIS where she oversaw a workforce of 7,800 inspection program personnel, including consumer safety officers, public health veterinarians and food inspectors. Wagner also spent more than 25 years with the U.S. Food and Drug Administration (FDA), working in a variety of roles ranging from analytical chemist to deputy associate commissioner for regulatory affairs in the Office of Regulatory Affairs, FDA's inspection and enforcement arm, to the deputy center director for regulatory affairs and associate commissioner for Food Safety Modernization Act implementation at the Center for Food Safety and Applied Nutrition.

Donald Warne, MD, MPH, Professor of Public Health, Provost Fellow of Indigenous Health Policy, and Co-Director of Johns Hopkins Center for Indigenous Health. An enrolled member of the Oglala Lakota Tribe in Pine Ridge South Dakota. Warne comes from a long line of traditional healers and medicine men and is a celebrated researcher of chronic health inequities. A scholar in Indigenous health, health education, policy, and equity. He led a team that created the first Indigenous health-focused Master of Public Health and PhD programs in the U.S. or Canada at the University of North Dakota.

Caitlin Welsh is the director of the Global Food and Water Security Program at the Center for Strategic and International Studies (CSIS), where she analyzes the drivers and consequences of food and water insecurity around the world, including for U.S. national security. Her specific areas of focus include the impacts of Russia's war in Ukraine on global food security and nutrition, food insecurity in the U.S. military, and the coherence between U.S. global water security policy and U.S. global food security policy. Prior to joining CSIS, Ms. Welsh served for over 12 years in the U.S. government, including at the National Security Council and National Economic Council as director for global economic engagement with responsibility for the G7 and G20, and at the U.S. Department of State's Office of Global Food Security, where she served as acting director. Ms. Welsh was a presidential management fellow at the U.S. African Development Foundation and a Peace Corps volunteer in Morocco. She has testified before Congress on global food security on multiple occasions, and her analysis has been featured in the New York Times, CNN, NPR, PBS, the Wall Street Journal, The Economist, Financial Times, Foreign Policy, BBC, Newsweek, and other outlets. Ms. Welsh received her BA from the University of Virginia and MPA from Columbia University's School of International and Public Affairs and hails from Erie, Pennsylvania.

Dr. Katie Wilson has a passion for child nutrition and has dedicated her career to improving access to healthy food for all children and their families. She has spent 23 years as a school nutrition director, 5 years as the Executive Director for the Institute of Child Nutrition, 2 years as the Deputy Under Secretary of Food, Nutrition, and Consumer Services at the United States Department of Agriculture, appointed by President Obama and is presently the Executive Director of the Urban School Food Alliance. Katie has shared her expertise throughout the United States and around the world as an invited speaker, and an academic guest lecturer. She also served on the 31st Standing Committee on Nutrition at the United Nations and is on the Board of Directors for the international group, Eating City. Dr. Wilson holds a bachelor's of science degree in dietetics, a master's degree in food science and nutrition and a doctoral degree in foodservice and lodging management. She is credentialed as a School Nutrition Specialist. She has received many peer nominated awards throughout her career, including the award in her name: The Dr. Katie Wilson Lifetime Achievement Award, and is considered one of the top experts in the field of child nutrition.

Tanya Wolfram is COO of Reinvestment Partners, a nonprofit community development corporation with a mission to foster healthy and just communities by empowering people, improving places, and influencing policy. Reinvestment Partners addresses the problems of poverty and social injustice in the areas of food, housing, health, and financial services. Reinvestment Partners has most recently focused on the intersection of community development and health, developing a large-scale produce prescription program that has provided more than 130,000 North Carolina families with access to healthy food in partnership with health plans and health providers. Tanya has more than 20 years of experience in community development, including real estate development, policy analysis, and community relations. She has worked in both the nonprofit and corporate sectors and has a master's degree in public policy from Duke University and an undergraduate degree from Brown University.
